NOTICE PROPOSED AGENCY ACTION
ORDER GRANTING CERTIFICATE

BY THE COMMISSION:

Notice is hereby given by the Florida Public Service Commission that the action discussed herein is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for formal proceeding pursuant to Rule 25-22.029, Florida Administrative Code.

By Order No. 17111 this Commission made the finding that a limited version of Shared Tenant Services (STS), as defined in Section 364.339, Florida Statutes, is in the public interest. Section 364.339 gave the Commission authority to certificate providers of STS notwithstanding the fact that Section 364.335, Florida Statutes, prohibits services that duplicate or compete with available local exchange service provided by the local exchange telephone company (LEC). STS is defined as telephone service which is furnished through a common switching or billing arrangement to commercial tenants within a single building by an entity other than an existing LEC.

Although the Commission has not yet adopted rules regarding STS, STS key system providers are subject to all applicable requirements of Order No. 17111 including the following:

1. Each STS provider must advise all customers of its current rates for resold local exchange service and its quality of service standards.
2. Each STS provider must inform each customer, in advance of an agreement to provide service, that the Florida Public Service Commission will not set rates or regulate the service quality standards.
3. Each STS provider must assure that the LEC may gain access to any tenant requesting direct service.
4. Each STS provider shall offer unrestricted access to all locally available Interexchange Carriers (IXCs).
5. Each STS provider shall assure each customer access to the LEC operators (by dialing "zero") for emergencies and for LEC toll service.
6. Each STS provider shall assure each customer access to 911 service where it is available.
7. Each STS provider's certificate provides authority for shared tenant service in one building, and only for commercial tenants within that building.
8. Each STS provider is prohibited from establishing dedicated facilities (private line) to an interexchange carrier's point of presence.
9. Each STS provider is prohibited from provision of shared Wide Area Telephone Service (WATS) unless the STS provider has been granted, in addition to its STS certificate, authority for such service.
10. Each STS provider is prohibited from constructing private bypass facilities, e.g., microwave towers, for interconnecting other STS locations.
11. Each STS provider is prohibited from allowing intercommunication between unaffiliated commercial entities.

12. Each STS provider shall be required to satisfy statutory obligations concerning applicable gross receipts taxes and regulatory assessment fees.
13. Each STS provider shall maintain adequate records to allow this Commission to determine, through audit procedures, that applicable assessment fees and gross receipts taxes have been paid.
14. Each STS provider shall file tariff revisions no later than (30) days before the date the revision will become effective.
15. Each STS provider is prohibited from sharing or pooling more than 250 trunks per PBX.

On October 3, 1989, Sharenet, Inc. filed an application for a certificate to provide STS through a key system, at the following locations:

Tampa Palms
15310 Amberly Drive
Tampa, Florida

Sarasota City Center
1859 Main Street
Sarasota, Florida

Sand Lake
4830 Sand Lake Road
Orlando, Florida

The application contained the required information and the proposed tariffs. Having considered the application, the Company appears to be capable of providing STS services at the above locations. Therefore, we find that it is in the public interest to grant a certificate to the Company.

Based on the foregoing, it is,

ORDERED by the Florida Public Service Commission that the application of Sharenet, Inc. for a certificate to provide shared
