ORDER RELEASING REVENUES HELD SUBJECT TO REFUND
AND
CLOSING DOCKET

On August 24, 1990 AT&T Communications of the Southern States (ATT-C or the Company) filed a revision to its channel services tariff proposing to expand ATT-C's digital capability in Florida. The Company also proposed to reprice their Analog Channel Services by increasing the Channel Terminal rate element and decreasing the per mile charge. ATT-C included in its filing a proposal to temporarily grandfather Analog Channel Services, except where ACCUNET Spectrum of Digital Services (ASDS) is not available, and withdraw this service effective July 31, 1991.

We were concerned with the impact to the end user when the suggested repricing and phase out of Analog Channel Services by ATT-C were combined with the recent restructure of Special Access in the Private Line Docket No. 890505-TL. Therefore, we ordered that ATT-C's tariff filing in this docket be approved but required that any increase in revenues be held subject to refund pending further investigation into the impact this proposal might have on the end user.

As a result of this investigation, United Telephone, Centel, GTE of Florida, Southern Bell and ALLTEL expressed concerns as to the effect this tariff might have on customers when combined with the Private Line Special Access restructure but none could provide any additional insight regarding the matter. According to the

Division of Consumer Affairs, during the period between the agenda conference and the present (period revenues were to be held subject to refund), no complaints or adverse comments were filed regarding this tariff.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that AT&T COMMUNICATIONS OF THE SOUTHERN STATES no longer be required to retain any increased revenues arising from its revised Channel Services Tariff. It is further

ORDERED that this docket be closed.

By ORDER of the Florida Public Service Commission, this 15th day of JANUARY, 1991.
