 GERALD L. GUNTER
 MICHAEL MCK. WILSON

ORDER APPROVING PETITIONS FOR APPROVAL OF
 CHARGES FOR UNDERGROUND DISTRIBUTION FACILITIES

BY THE COMMISSION:

Pursuant to the provisions of Section 366.06(4), Florida Statutes, and Rules 25-6.033 and 25-6.078, Florida Administrative Code, Florida Power & Light Company (FPL), Florida Power Corporation (FPC), Tampa Electric Company (TECO) and Gulf Power Company (Gulf) have filed annual updates to their tariffs and charges associated with the installation of underground residential distribution service. These costs represent the additional costs to provide underground service in place of the standard overhead service. The cost of standard overhead service is recovered in the base rates paid by all customers. Proposed changes were accompanied by workpapers explaining the derivation of the charges.

Gulf filed their proposed tariffs on March 4, 1991, requiring action by May 3, 1991. TECO filed their proposed tariffs on March 20, 1991 requiring action by May 19, 1991. FPL filed their proposed tariffs on March 21, 1991 requiring action by May 20, 1991. FPC filed their proposed tariffs on March 13, 1991 requiring action by May 12, 1991. The utilities have been handled as a single docket in prior years to enable a comparison across utilities. Therefore, a decision to approve, deny or suspend is controlled by the date of the earliest filing, March 4, 1991.

ORDER NO. 24508
DOCKET NO. 910271-EI
PAGE 2

The companies propose that the following per lot cost differentials be applied to residential subdivisions consisting of single family dwellings (226 lot low density subdivisions) and mobile home parks (176 lot high density subdivisions).

1991 OVERHEAD VS. UNDERGROUND
PER LOT COST DIFFERENTIALS

	\$ 1990 Existing	\$ 1991 Proposed	% Change
<u>Residential Subdivisions</u>			
A. Single Family Dwelling- (Low Density)			
FPC	278.13	306.82	10.32
FPL	334.80	362.69	8.33
TECO	379.97	330.93	-12.91
GULF	383.41	339.78	-11.38
B. Mobile Home Park (High Density)-Individual Meters			
FPC	183.23	192.31	4.96
FPL	225.11	262.74	16.72
TECO	322.59	259.17	-19.66
GULF	306.25	276.33	-9.77
C. Mobile Home Park (High Density)-Ganged Meters			
FPC	79.70	83.02	4.17
FPL	105.17	95.22	-9.46

Note: (1) 1990 is the first year that Gulf has submitted standardized cost information for the high density 176 lot subdivision. Previously, the company estimated the overhead-underground cost differentials on a project-by-project basis.

Charges related to other underground services offered by FPL have also been modified by the company to reflect current costs.

We have reviewed the updated tariff sheets, charges and supporting data provided by the utilities. We find that, overall, the reductions/increases in the cost differentials in the various categories of service appear to be reasonable. Categories for most utilities show modest increases, or decreases.

ORDER NO. 24508
DOCKET NO. 910271-EI

In consideration of the foregoing, it is

ORDERED by the Florida Public Service Commission that Florida Power Corporation's, Florida Power & Light Company's, Tampa Electric Company's and Gulf Power Company's updated tariff sheets and charges associated with the installation of underground electric distribution facilities to serve residential customers should be approved. It is further

ORDERED that this docket is closed if no protest is filed within the specified time period.

By ORDER of the Florida Public Service Commission, this 9th day of MAY, 1991.
