ORDER APPROVING TARIFF FILING

BY THE COMMISSION:

On April 1, 1991 AT&T Communications of the Southern States (ATT-C) filed a tariff proposing to reduce Reach Out Florida recurring charges for all plan options. Additionally, this filing would waive the nonrecurring initiation of the service charge of \$10.00 from May 1, 1991 through July 31, 1991. The tariff would also remove references to promotions that are no longer in effect.

ATT-C asserts that its filing to reduce Reach Out Florida rates is in response to the increasingly competitive market in Florida for residential services. Reach Out Florida will allow heavy users of intrastate toll calls to experience lower bills than they might otherwise incur making intrastate measured toll service (MTS) calls.

ATT-C maintains that, although this filing would result in an estimated annual revenue reduction of \$1.12 million, the proposed rates would generate revenues which would cover the costs, including the cost of access and billing and collection) of this service and, therefore, the proposed tariff complies with our Order No. 19758, issued in Docket No. 870347-TI.

Because this tariff will allow ATT-C Reach Out Florida customers to experience lower bills and will reduce possible customer confusion by removing references to Reach Out Florida promotions that are no longer in effect, we find it appropriate to approve the tariff filing.

Based on the foregoing, it is
