ORDER GRANTING EXTENSION OF TIME
TO FILE CONSERVATION PLAN

By Order No. 25223, issued on October 16, 1991, Talquin Electric Cooperative, Inc. (Talquin) was ordered to file within 90 days of that Order its conservation plan. On December 16, 1991, Talquin filed a request to be allowed to file its conservation plan on or before February 17, 1992.

The reasons expressed for the delay are as follows:

1. Since this is Talquin's first time submitting plans to the Commission, a large amount of time has and is being expended simply reviewing various programs and methodologies;

2. Talquin requested from Florida Power Corporation a copy of their computer program that models the cost effectiveness of DSM programs, and took the necessary time reviewing this fresh material;

3. Talquin was not an active participant in Docket 891324-EU in which the Commission formatted its "Cost-Effectiveness Manual" and, therefore, must take additional time to review and familiarize themselves with this document;

4. Talquin requested data from its generating cooperative, Seminole Electric Cooperative, Inc. ("Seminole). Seminole had some difficulty getting the data to Talquin because of unforeseen staffing problems which further interrupted Talquin's time schedule.
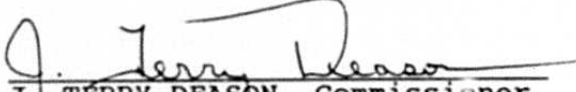

ORDER NO.   25545
DOCKET NO. 910948-EG
PAGE 2

The undersigned finds that the request should be granted.

It is, therefore,

ORDERED that Talquin Electric Cooperative, Inc. shall have until February 17, 1992 in which to file its conservation plan.

By Order of Commissioner J. Terry Deason, as Acting Prehearing Officer, this __26th__ day of ___DECEMBER_____ , __1991____ .

J. TERRY DEASON, Commissioner
and Acting Prehearing Officer
