ORDER APPROVING TARIFF FILING

BY THE COMMISSION:

ATT-C has filed a tariff to introduce SelectCall Service. SelectCall is a long distance service that permits the customer to receive direct dialed calls originating over the ATT-C network from specific customer authorized telephone numbers and have the charges for those calls automatically reversed without operator assistance. The customer is allowed to specify up to 5 numbers for SelectCall authorization. SelectCall service can be compared to two services, as a variation of collect calling and as a substitute for 800 service. Under the proposed tariff, SelectCall calls are subject to a service charge of \$1.44 per call. This charge is in addition to ATT-C's dial station rates. Because the Company has not offered this service before, ATT-C is unsure what the revenue impact will be.

Upon review, it appears that SelectCall will be of benefit to a customer who does not want 800 service but who wants to make calling to his location easily accessible to a few. Despite the price differential between SelectCall and collect calling, some customers may find the ease with which the service works worth the higher price, especially where calling volumes are not large enough to warrant subscribing to an 800 service. We shall approve SelectCall.

Therefore, it is

ORDERED by the Florida Public Service Commission that the tariff filing by AT&T Communications of the Southern States to offer SelectCall Service is hereby approved. It is further
