ORDER APPROVING TARIFF FILING

BY THE COMMISSION:

On January 31, 1994 GTEFL filed a tariff to introduce two additional methods of accessing its Packet Switching Network Service. The two proposed methods are Public Dial Access and Dedicated Access. Public Dial Access allows a customer with a public switched telephone line and a modem to dial a public switched telephone number which is terminated on GTEFL's packet switch. Dedicated Access allows a customer to subscribe to an analog or digital private line which connects the customer's data terminal equipment to GTEFL's packet switch.

Upon review, we shall approve GTEFL's tariff filing to introduce Public Dial Access and Dedicated Access as additional methods of accessing the Company's Packet Switching Network Service. The proposed rates appear to cover the estimated costs of the offering. The service will provide greater access to, and use of, the Company's Packet Switch Network which should increase network efficiency.

Therefore, it is

ORDERED by the Florida Public Service Commission that GTEFL's tariff filing to add Public Dial Access and Dedicated Access as two additional methods of accessing Local Packet Switching Network Service is hereby approved. It is further
