ORDER COMMENCING INVESTIGATION

BY THE COMMISSION:

On July 6, 1994, AT&T Communications of the Southern States, Inc. (ATT-C) filed a tariff to match Southern Bell's (SBT) intraLATA message toll service (MTS) rates for users who dialed 10288 for intraLATA calls. These rate reductions were to be offered as a market trial in the Southeast LATA only, and were to run for four months. By Order No. PSC-94-1043-FOF-TI, we denied that filing. Approval of that filing would change our policy that ATT-C is required to have uniform statewide average rates.

Upon consideration, we find that in order to further consider the policy of statewide uniform average MTS rates, we shall commence an investigation into the policy and the possible implications of overriding the current requirements under that policy.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the Commission hereby commences an investigation of statewide average message toll service rates of interexchange companies and local exchange companies.
