ORDER SUSPENDING TARIFF

BY THE COMMISSION:

On October 13, 1994, Gulf Power Company (Gulf) petitioned this Commission for approval of its proposed Pilot/Experimental Real Time Pricing Program (RTP) and an associated rate schedule. According to Gulf, this program provides hourly energy prices on a day ahead basis to customers who have an actual demand of 2,000 kilowatts or higher. Customer participation would be voluntary and will be limited to a maximum of twelve customers during the pilot/experimental period.

This Commission recently approved an experimental real time pricing rate schedule for another electric utility. While the concept of real time pricing is understood, the terms and conditions found on Gulf's proposed RTP tariffs are different from that previously approved by this Commission. We therefore find it appropriate to suspend Gulf's RTP tariffs to allow our staff time to conduct a thorough investigation into Gulf's experimental real time pricing program.

It is therefore,

ORDERED by the Florida Public Service Commission that the petition filed by Gulf Power Company on October 13, 1994, to approve its proposed Pilot/Experimental Real Time Pricing Program is suspended.
