ORDER GRANTING MOTION FOR ENLARGEMENT OF TIME

In Order No. PSC-94-1313-FOF-EG, issued in this docket on October 25, 1994, we approved the adoption of numeric conservation goals for Florida Power Corporation (Florida Power or the Company). These goals were adopted pursuant to Rules 25-17.001 - .005, Florida Administrative Code, which require us to set demand side management (DSM) goals for Florida's electric utilities.

On December 23, 1994, Florida Power Corporation filed a Motion for Enlargement of Time expressing its desire to coordinate with the Legal Environmental Assistance Foundation (LEAF) on its DSM portfolio. The motion requests an extension of time to allow Florida Power the opportunity to sufficiently address such issues as renewables, low income, gas research and new construction.

Florida Power cites the stipulation entered into with LEAF in the conservation goals docket which requires both parties to work cooperatively on the Company's DSM program design, as reason for its motion. LEAF retained two consultants who are offering assistance and suggestions on various program options. This process requires extensive time to coordinate and communicate the data necessary for both parties to evaluate all options.

The issues in this case are, indeed, complex. Florida Power's inability to respond in the allocated time period is understandable. Florida Power's argument that it has been under time constraints in recent weeks is persuasive.

Based on the foregoing, it is therefore

ORDERED that Florida Power Corporation's Motion for Enlargement of Time is, hereby, granted. It is further

ORDERED that Florida Power Corporation's Demand-Side Management plan shall be filed with the Director, Division of Records and Reporting, before the close of business on February 22, 1995.
