ORDER GRANTING CONFIDENTIAL CLASSIFICATION

On July 16, 1996, the Southern Company and Southern Development and Investment Group, Inc. (Southern or the Companies) filed a request for confidential treatment of certain portions of a Certificate,<sup>1</sup> Document No. 7424-96, submitted to the FPSC pursuant to Securities and Exchange Commission Rule 53(a)(4), CFR §250.53(a)(4).

Southern noted that public disclosure of the information at issue would cause irreparable harm to the Companies. In effect, the financial and business planning information would allow competitors to have access to information about the financial stability and resources of the Companies. This would enable competitors to determine the Companies' business plans, resource allocation and ability of the Companies to enter markets and develop new markets and projects. Accordingly, Southern asked for confidential classification of this information pursuant to Section 366.093(3)(e), Florida Statutes. That provision affords confidential treatment to information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Florida law presumes that documents submitted to governmental agencies shall be public records. The only exceptions to this presumption are the specific statutory exemptions provided in the law and exemptions granted by governmental agencies pursuant to the specific terms of a statutory provision. This presumption is based on the concept that government should operate in the "sunshine". It is the Company's burden to demonstrate that the documents fall into one of the statutory examples set out in Section 366.093, Florida Statutes, or to demonstrate that the information is proprietary confidential information, the disclosure of which will cause the Company or its ratepayers harm.
