In re: Application for amendment  
of Certificates Nos. 136-W and  
97-S to add and delete territory  
in Pasco County by Aloha  
Utilities, Inc.

DOCKET NO. 990940-WS  
ORDER NO. PSC-99-1911-FOF-WS  
ISSUED: September 27, 1999

ORDER AMENDING CERTIFICATES TO  
INCLUDE ADDITIONAL TERRITORY,  
DELETE TERRITORY, AND CLOSING DOCKET

BY THE COMMISSION:

Aloha Utilities, Inc. (Aloha or utility) is a class A water and wastewater utility located in Pasco County (County). The utility consists of two divisions (Aloha Gardens and Seven Springs). Both divisions have water and wastewater systems. At the end of the year 1998, the utility served a total of 11,432 water customers, and 10,892 wastewater customers. According to the utility's 1998 annual report, its total annual revenues were \$5,387,217 and the net operating income was \$351,009.

On July 19, 1999, Aloha applied for an amendment of Certificates Nos. 136-W and 97-S to add and delete territory in Pasco County. The utility is exchanging territory with the County, so that Aloha and the County can better serve a planned unit development within the County. By this amendment application, the utility proposes to add 113 equivalent residential connections (ERCs) for water and wastewater and to delete 98 ERCs for water and wastewater.

Application

The application is in compliance with the governing statute, Section 367.045, Florida Statutes, and other pertinent statutes and administrative rules concerning an application for amendment of certificate. On July 19, 1999, the law firm which represents the utility paid a filing fee of \$4,500 for the filing of the amendment

and deletion application. On August 6, 1999, and August 12, 1999 the firm filed letters requesting a refund of \$3,900. According to Rule 25-30.020, Florida Administrative Code, a separate fee shall apply for water and wastewater service. The correct filing fee for the additional area is \$200 for water, and \$200 for wastewater, and the correct filing fee for the deletion of the water area is \$100, and \$100 for wastewater. Therefore, by Order No. PSC-99-1826-FOF-SU, issued September 20, 1999, we authorized a refund of \$3,900 to the law firm representing the utility.

Adequate service territory, system maps, and a territory description have been provided as prescribed by Rule 25-30.036(3)(e), (f) and (I), Florida Administrative Code. A description of the territory to be added and deleted by the utility is appended to this Order as Attachment A, and by reference is incorporated herein.

The utility has submitted an affidavit consistent with Section 367.045(2)(d), Florida Statutes, that it has tariffs and annual reports on file with the Commission. In addition, the application contains proof of compliance with the noticing provisions set forth in Rule 25-30.030, Florida Administrative Code. No objections to the application have been received and the time for such has expired. The local planning agency was provided notice of the application and did not file a protest to the application. The Department of Community Affairs has identified no growth management concerns with the proposed exchange of territory with Pasco County. The utility states that the provision of service will be consistent with the utility section of the local comprehensive plan.

Seven Springs consists of 8 well/treatment facilities and one 500,000 gallon ground storage and pumping facility. Water is also obtained through an interconnect with Pasco County Utilities. The system maintains the pressure of approximately 52 pounds per square inch. The current limiting factor with regard to the water system is the Southwest Florida Water Management District (SWFWMD) Water Use Permit capacity of 2.04 million gallons per day. The current flows at the Seven Springs wastewater plant is approximately 1,150,000 gallons per day. The utility is currently building additional plant and effluent disposal. The projected water flows

ORDER NO. PSC-99-1911-FOF-WS  
DOCKET NO. 990940-WS  
PAGE 3

from the additional area is 40,950 gallons per day. The projected wastewater flows from the additional area is 32,175 gallons per day. However, when the territory being deleted from the Aloha service area is also considered, the net effect will result in almost no impact on the water and wastewater systems. Therefore, the system has adequate water and wastewater capacity.

Regarding the financial impact of these customers to the utility, according to the utility's tariff and service availability policy, developers of the property will be required to construct all on-site facilities and convey those to the utility at no cost in exchange for service. The developers will also pay the standard system capacity fees to offset a portion of the cost of the transmission, treatment and disposal facilities in order to serve the properties. Consequently, the utility has demonstrated the financial ability to provide quality service to these customers.

Staff has contacted the Department of Environmental Protection (DEP) and learned that there are no outstanding notices of violation issued for the water system. We currently have Docket No. 960545-WS open to address a water quality issue expressed by some residents. By Order No. PSC-99-0061-FOF-WS, issued January 7, 1999, in that docket, we proposed that no action should be taken regarding the quality of water service. The order has been protested and the case is set for hearing.

Staff has contacted the DEP and learned that there is an amended and restated consent final judgement (judgement) for the wastewater system. The utility is expanding the wastewater treatment plant, conducting a infiltration/inflow study on the collection system and is in the process of expanding the reuse system. According to the DEP, the utility is on schedule to meet the time frames in the judgement.

Based on the above information, we find that it is in the public interest to grant the application of Aloha Utilities, Inc. for amendment of Water Certificate No. 136-W and Wastewater Certificate No. 97-S for the territory described in Attachment A. The utility has filed revised tariff sheets incorporating the

additional territory into its tariff and returned its certificate for entry reflecting the additional territory.

Rates and Charges

Aloha Utilities, Inc. shall charge the customers in the territory added herein the rates and charges approved in its tariff until authorized to change by this Commission.

Based on the foregoing, it is

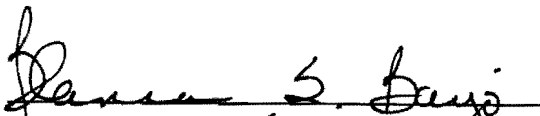

ORDERED by the Florida Public Service Commission that Water Certificate No. 136-W and Wastewater Certificate No. 97-S, held by Aloha Utilities, Inc., 2514 Aloha Place, Holiday, Florida 35691, are hereby amended to reflect the territory described in Attachment A of this Order. It is further

ORDERED that Attachment A is incorporated herein by reference. It is further

ORDERED that Aloha Utilities, Inc. shall charge the customers in the territory added herein the rates and charges approved in its tariff until authorized to change by this Commission. It is further

ORDERED that this docket is hereby closed.

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Director, Division of Records and Reporting, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Director, Division of Records and reporting and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
