FINAL ORDER GRANTING APPROVAL FOR AUTHORITY
TO ISSUE AND SELL SECURITIES

BY THE COMMISSION:

Tampa Electric Company (TECO) filed an application on August 18, 1999, seeking authority pursuant to Section 366.04, Florida Statutes, and Chapter 25-8, Florida Administrative Code, to issue and sell securities during the twelve months ending November 30, 2000. Notice of TECO's application was given in the Florida Administrative Weekly on October 1, 1999. TECO is a Florida corporation and was incorporated in 1899 and was reincorporated in 1949.

TECO seeks authority to issue, sell and/or exchange equity securities and issue, sell, exchange and/or assume long-term debt securities and short-term unsecured promissory notes and/or to assume liabilities or obligations as guarantor, endorser or surety during the period covered by its application. TECO also seeks authority to enter into interest rate swaps or other derivative instruments on debt securities and notes.

According to TECO, the equity securities may take the form of preferred stock, preference stock, common stock, or options or rights with respect to the foregoing with such par values, terms and conditions, conversion and relative rights and preferences as may be permitted by TECO's Restated Articles of Incorporation as the same may be amended to permit the issuance of any such securities.

FPSC-RECORDS/REPORTING

According to TECO, the long-term debt securities may take the form of first mortgage bonds, debentures, notes, convertible securities, installment contracts and/or other obligations underlying pollution control or sewage and solid waste disposal revenue bonds, or options, rights, interest rate swaps or other derivative instruments with respect to the foregoing with maturities ranging from nine months to one hundred years and be issued in both domestic and international markets. TECO states that the issuance and/or sale of equity securities and long-term debt requested may be through negotiated underwritten public offering, including medium-term note issuance, public offering at competitive bidding, direct public or private sale, sale through agents, or distributions to security holders of the company or affiliated companies.

The short-term unsecured promissory notes may be sold through the commercial paper market. Notes sold in the commercial paper market may bear an interest rate as determined by the market price at the date of the issuance, including discount and broker-dealer commissions. The short-term unsecured promissory notes sold through the commercial paper market will mature not more than nine months from the date of issuance. The issuance of short-term notes may include the issuance of short-term tax-exempt notes.

The amount of all equity and long-term debt securities issued, sold, exchanged or assumed and liabilities and obligations assumed or guaranteed as guarantor, endorser, or surety will not exceed in the aggregate \$600 million during the period covered by TECO's application, including any amounts issued to retire existing long-term debt securities. The maximum amount of short-term unsecured promissory notes outstanding at any one time will be \$400 million.

TECO also states that any proceeds to be received from any sale of additional securities will be added to the company's general funds and will be used for working capital requirements and for other general business purposes, including the financing of the company's construction program or the acquisition of additional properties or businesses. According to TECO, the net proceeds received from any sale of these securities may also be used to repay short-term unsecured promissory notes or for the purchase or repayment of securities of the company.

Having reviewed the application, it is the finding of this Commission that the issuance and sale of the aforementioned securities will not impair the ability of TECO to perform the services of a public utility. These transactions are for such lawful purposes within TECO's corporate powers and, as such, the application is granted subject to the conditions stated herein.

Our approval of the proposed issuance of securities by TECO does not indicate specific approval of any rates, terms, or conditions associated with the issuance. Such matters are properly reserved for review by the Commission within the context of a rate proceeding.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the application of Tampa Electric Company to issue and sell securities during the twelve months ending November 30, 2000, be approved. It is further
