48-1/2	1-12	All	Sensitive competitive information

FPL seeks confidential classification for material that contains or constitutes internal audit controls or reports or information relating to same within the meaning of Section 366.093(3)(b), Florida Statutes. FPL also seeks confidential classification for contractual data such as pricing and other terms, payment records, and contractor and supplier rates, the disclosure of which would impair the efforts of FPL to contract for goods and services on favorable terms and would impair the interests of the contractors. FPL seeks confidential classification for customer-specific account information. FPL asserts that it does not disclose such information to third parties unless required by law or unless the customer consents to the

disclosure. FPL also seeks confidential classification for bank account information. FPL asserts that it and its counter-parties routinely protect each other's bank account information. According to FPL, this is an important matter of commercial security because publication of bank account information could facilitate unauthorized access to those accounts and other abuses. FPL also seeks confidential classification for information concerning St. Johns River Power Park (SJRPP), a Jacksonville Electric Authority and FPL venture. According to FPL, the information pertains to long term contracts with fixed price provisions or short term spot transactions concerning coal and coal supply agreements. FPL states that this information is particularly sensitive given SJRPP's reliance upon these fuel contracts for generating the electric power supplied to JEA and FPL. FPL asserts that JEA maintains this information as confidential pursuant to Section 163.01(15)(m), Florida Statutes.

FPL asserts that, pursuant to Section 366.093, Florida Statutes, such information is entitled to confidential classification and is exempt from the mandatory disclosure provisions of the public records law. FPL asserts that the sensitive contractual and competitive information, if disclosed, would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms. Section 366.093(3)(d), Florida Statutes. FPL also asserts that the information for which it seeks confidential classification relates "to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Section 366.093(3)(e), Florida Statutes.

CONCLUSION

Upon review, it appears that the information discussed above is proprietary confidential business information and should be granted confidential treatment to avoid harm to the company and its ratepayers. Based on the foregoing, FPL's request for confidential treatment of Documents Nos. 05786-03, 06094-03, and 06256-03 is granted.
