

BEFORE THE PUBLIC SERVICE COMMISSION

In re: Petition to modify requirement to
institute local number portability pursuant to
Section 251(f) of the Telecommunications Act
of 1996, by GTC, Inc. d/b/a GT Com.

DOCKET NO. 040249-TL
ORDER NO. PSC-04-0486-PCO-TL
ISSUED: May 11, 2004

The following Commissioners participated in the disposition of this matter:

BRAULIO L. BAEZ, Chairman
J. TERRY DEASON
LILA A. JABER
RUDOLPH "RUDY" BRADLEY
CHARLES M. DAVIDSON

ORDER SUSPENDING GTC, INC. D/B/A GT COM'S
INTERMODAL PORTING REQUIREMENTS FOR SIXTY DAYS

BY THE COMMISSION:

I. Case Background

Number Portability is one of the obligations that Congress imposed on all local exchange carriers, both incumbents and new entrants, in order to promote the pro-competitive, deregulatory markets it envisioned. The FCC released the Local Number Portability (LNP) First Report and Order in 1996¹. In it, the FCC highlighted the critical policy goals underlying the LNP requirement, indicating that "the ability of end users to retain their telephone numbers when changing service providers gives customers flexibility in the quality, price, and variety of telecommunications services they can choose to purchase." The Commission found that "number portability promotes competition between telecommunications service providers by, among other things, allowing customers to respond to price and service changes without changing their telephone numbers." (§ 30) The order also pointed out that Section 251(b) of the Telecommunications Act "requires local exchange carriers to provide number portability to all telecommunications carriers, and thus to Commercial Mobile Radio service (CMRS) providers as well as wireline service providers." (§ 152)

¹ FCC 96-286, In the Matter of Telephone Number Portability, First Report and Order and Further Notice of Proposed Rulemaking, CC Docket No. 95-116, Released July 2, 1996.

DOCUMENT NUMBER-DATE

05469 MAY 11 3

FPSC-COMMISSION CLERK

In Order FCC 03-284², the FCC mandated that local exchange companies (LECS) in the top 100 metropolitan statistical areas (MSAs)³ must have the ability to port numbers to wireless carriers as of November 24, 2003. (¶ 22) The FCC recognized that many wireline carriers operating outside the top 100 MSAs may require some additional time to prepare for implementation of intermodal portability, and waived until May 24, 2004, the requirement that wireline carriers operating outside the top 100 MSAs port numbers to wireless carriers that do not have a point of interconnection or numbering resources in the rate center where the customer's wireline number is provisioned. (¶ 29)

In Order FCC 04-12,⁴ the FCC acknowledged that Two Percent Carriers (carriers with fewer than two percent of the nation's subscriber lines in the aggregate nationwide) who have not previously upgraded their systems to support LNP may need a limited amount of time to overcome the technical obstacles they face to successfully meet a request for wireline-to-wireless porting. (¶ 8) The FCC also stated in the order that "While we continue to believe rapid implementation of number portability to be in the public interest, we also believe it to be just as important that carriers implement and test the necessary system modifications to ensure reliability, accuracy and efficiency in the porting process." (¶ 9)

GTC, Inc. d/b/a GT Com is a wholly-owned subsidiary of FairPoint Communications, Inc. (FairPoint) which is headquartered in Charlotte, North Carolina. FairPoint provides telecommunications services through 26 rural LECs in more than 119 communities in 17 states. GT Com serves approximately 50,524 access lines in and around Taylor, Gulf, Calhoun, Franklin, Liberty, Madison, Jefferson, Bay, Gadsden, Jackson, Okaloosa, and Walton Counties. GTC, Inc. d/b/a GT Com, petitioned this Commission to waive their intermodal porting deadline for twelve months.

II. Jurisdiction

We are vested with jurisdiction pursuant to Section 364.16(4), Florida Statutes. Section 364.16(4), Florida Statutes, provides this Commission with authority over both temporary and permanent number portability issues, and acknowledges that providers must have permanent portability in place ". . . as soon as reasonably possible after the development of national standards." Furthermore, this Commission is authorized to implement procedures consistent with the Act in accordance with Section 120.80(13)(d), Florida Statutes.

² FCC 03-284, In the Matter of Telephone Number Portability – CTIA Petitions for Declaratory Ruling on Wireline-Wireless Porting Issues, CC Docket No. 95-116, Released November 10, 2003.

³ The FCC's list of Florida MSAs in the top 100 include Tampa-St. Petersburg (20), Miami (23), Orlando (34), Fort Lauderdale (36), West Palm Beach-Boca Raton (56), Jacksonville (58), and Sarasota-Bradenton (90).

⁴ FCC 04-12, In the Matter of Telephone Number Portability, CC Docket No. 95-116, Released January 16, 2004.

The federal Telecommunications Act contemplates that state commissions will act in this area. Specifically, Section 251(f)(2) states that a local exchange carrier “. . . with fewer than 2 percent of the Nation’s subscriber lines installed in the aggregate nationwide may petition a State commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) to telephone exchange service facilities specified in such petition.” It is Section 251(b)(2) that requires local exchange companies to provide number portability, to the extent technically feasible, in accordance with the requirements prescribed by the Federal Communications Commission (FCC). The FCC has interpreted this requirement to include porting numbers to wireless carriers. See 18 FCC Rcd 23697 (FCC 2003); and 11 FCC Rcd 8352, 8368 (FCC 1996). In accordance with Section 251(f)(2), the Petitioner in this case is seeking relief from the requirements of Section 251(b)(2) as implemented by the FCC.

Based on the foregoing, we have substantive and procedural authority to address the Petition in this Docket in the manner herein recommended.

III. Analysis

Carriers are required to support number portability in areas outside the largest 100 MSAs within six months after receiving a request for number portability or by May 24, 2004, whichever is later. (FCC 02-215, ¶ 31) GT Com is a carrier outside the largest 100 MSAs and has received two bonafide requests from wireless carriers to support intermodal porting: one dated July 21, 2003, and one dated September 24, 2003. Since carriers are required to support number portability in areas outside the largest 100 MSAs within six months after receiving a request for number portability or by May 24, 2004, whichever is later, the May 24, 2004, date prevails.

GT Com has requested that this Commission grant it an extension of that porting requirement for 12 months, or until May 24, 2005, because the requirement is economically burdensome on the Company. GT Com is basing its petition on authority granted to state Commissions in §251(f)(2) of the Telecommunications Act of 1996 which states:

Suspensions and modifications for rural carriers -- A local exchange carrier with fewer than 2 percent of the Nation's subscriber lines installed in the aggregate nationwide may petition a State commission for a suspension or modification of the application of a requirement or requirements of subsection (b) or (c) to telephone exchange service facilities specified in such petition. The State commission shall grant such petition to the extent that, and for such duration as, the State commission determines that such suspension or modification—

(A) is necessary--

- (i) to avoid a significant adverse economic impact on users of telecommunications services generally;
- (ii) to avoid imposing a requirement that is unduly economically burdensome; or
- (iii) to avoid imposing a requirement that is technically infeasible; and

(B) is consistent with the public interest, convenience, and necessity.

The State commission shall act upon any petition filed under this paragraph within 180 days after receiving such petition. Pending such action, the State commission may suspend enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers.

GT Com states in its petition that it will need to install Siemens Software at a cost of \$44,200 to enable the existing switch to perform the intermodal porting functionality. It believes these costs make implementation of intermodal porting unduly economically burdensome.

In accordance with §251(f)(2), this Commission should act on GT Com's petition within 180 days of the petition filing date of March 19, 2004. Thus, final action is due on September 15, 2004. However, that date is after the FCC's required intermodal porting date of May 24, 2004. Thus, we find that a suspension for 60 days from the date of this Commission's order is appropriate and necessary to allow our staff time to review the petition and obtain additional discovery.

We determined that Section 251(f)(2) of the Act allows this Commission, while an application is pending, to "suspend enforcement of the requirement or requirements to which the petition applies with respect to the petitioning carrier or carriers." Therefore, we suspend the intermodal porting requirement for GT Com for 60 days to allow our staff to review GT Com's petition and seek discovery. In the event the 60-day suspension expires on a holiday or weekend, the next business day should apply. Our staff will bring a recommendation on the merits of this petition to us prior to the expiration of the 60-day suspension period.

Our decision to grant this suspension is in no way to serve as a precedent as to how this Commission will rule on the merits of the underlying petition.

ORDER NO. PSC-04-0486-PCO-TL
DOCKET NO. 040249-TL
PAGE 5

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that we suspend the intermodal porting requirement for GTC, Inc. d/b/a GT Com for 60 days from the date of this Order. In the event the 60-day suspension expires on a holiday or weekend, the next business day will apply. It is further

ORDERED that staff will bring a recommendation on the merits of this petition to us prior to the expiration of the 60-day suspension period.

By ORDER of the Florida Public Service Commission this 11th day of May, 2004.

BLANCA S. BAYO, Director
Division of the Commission Clerk
and Administrative Services

(S E A L)

JLS

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

Any party adversely affected by this order, which is preliminary, procedural or intermediate in nature, may request: (1) reconsideration within 10 days pursuant to Rule 25-

ORDER NO. PSC-04-0486-PCO-TL
DOCKET NO. 040249-TL
PAGE 6

22.0376, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court, in the case of an electric, gas or telephone utility, or the First District Court of Appeal, in the case of a water or wastewater utility. A motion for reconsideration shall be filed with the Director, Division of the Commission Clerk and Administrative Services, in the form prescribed by Rule 25-22.060, Florida Administrative Code. Judicial review of a preliminary, procedural or intermediate ruling or order is available if review of the final action will not provide an adequate remedy. Such review may be requested from the appropriate court, as described above, pursuant to Rule 9.100, Florida Rules of Appellate Procedure.
