In re: Petition for approval of numeric conservation goals by Florida Power & Light Company. | DOCKET NO. 040029-EG
| ORDER NO. PSC-04-0490-PCO-EG
| ISSUED: May 12, 2004

ORDER GRANTING INTERVENTION

BY THE COMMISSION:

By petition, dated April 29, 2004, the Florida Industrial Cogeneration Association (FICA) has requested permission to intervene in this proceeding. FICA states that its members, which include a majority of the Florida phosphate companies, self-generate, consume, and purchase substantial quantities of electricity, which comprises a substantial portion of their manufacturing costs. The cost of conservation programs implemented by the Commission in this proceeding will be charged to electric consumers, affecting the cost of electricity. In addition, FICA states that its members own and operate cogeneration facilities that recover waste heat from the manufacturing process to produce process thermal energy and electricity. Pursuant to Rule 25-17.0021, Florida Administrative Code, the utilities must consider these types of facilities in creating numeric conservation goals.

Having reviewed the Petition, it appears that the Florida Industrial Cogeneration Association's substantial interests may be affected by this proceeding. There has been no response filed in opposition to this request. Therefore, the Petition shall be granted. Pursuant to Rule 25-22.039, Florida Administrative Code, the Florida Industrial Cogeneration Association takes the case as it finds it.

Therefore, it is

ORDERED by the Florida Public Service Commission that the Petition to Intervene filed by the Florida Industrial Cogeneration Association is hereby granted. It is further

ORDERED that all parties to this proceeding shall furnish copies of all testimony, exhibits, pleadings and other documents which may hereinafter be filed in this proceeding, to:
