ORDER AMENDING CERTIFICATE NOS. 532-S AND 618-W
TO INCLUDE ADDITIONAL TERRITORY IN SUMTER COUNTY

BY THE COMMISSION:

North Sumter Utility Company, LLC (North Sumter) is a Class C water and wastewater utility company serving 131 metered water customers and 127 wastewater customers in Sumter County. The 2003 annual report on file with the Commission lists operating revenues of \$16,050, with a net operating loss of \$591,012, while showing in excess of \$25 million in plant investment. The utility's service area lies in the Southwest Florida Water Management District and is not in a water supply problem area.

North Sumter was originally granted certificates in Docket No. 010859-WS, and a service territory of 4677 acres to serve The Villages, a planned unit development. An amendment was later approved in Docket No. 021036-WS, wherein 2,190 acres were added to the service area.

The utility filed an application on July 7, 2004, to amend its water and wastewater certificates to add approximately 600 acres, pursuant to Section 367.045, Florida Statutes, and Rule 25-30.036, Florida Administrative Code. We have jurisdiction pursuant to Section 367.045, Florida Statutes, to address this application.

The application is in compliance with the governing statute, Section 367.045, Florida Statutes, and other pertinent statutes and administrative rules concerning an application for amendment of a certificate.

Adequate service territory maps and a territory description have been provided as prescribed by Rule 25-30.036(3)(e) and (i), Florida Administrative Code. No objections to the notice of application were received, and the time for filing objections has expired. There are no

outstanding notices of violation or consent orders with the Department of Environmental Protection. A description of the territory is appended to this Order as Attachment A.

In addition, the application contained proof of compliance with the noticing provisions set forth in Rule 25-30.030, Florida Administrative Code. The Department of Community Affairs (DCA) has stated that the proposed expansion of the utility appears to be consistent with the Sumter County Comprehensive Plan.

North Sumter has been providing service since mid-2003. The utility has the financial backing of an affiliate, The Villages of Lake-Sumter, Inc., which has agreed to provide financial support. Evidence of the utility's ownership of the properties upon which its treatment plants are constructed has been provided. The wastewater plant will be expanded to serve the additional area requested in this filing. Effluent disposal will continue via reuse system that irrigates the golf courses within The Villages of Sumter.

The new service area, comprised of eight parcels, is contiguous to the existing Villages development, and will contain both residential and general service customers. The expected number of customers to be served in the new service area is 5,385 water ERCs and 2,719 wastewater ERCs. Inclusion of this additional service area will not adversely impact the service now being provided to existing customers.

Based upon the above information, we find that it is in the public interest that the utility's application be granted and the land area described in Attachment A be added to the water and wastewater certificated territory of North Sumter.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that North Sumter Utility Company, LLC's Application for Amendment of Certificate Nos. 532-S and 618-W to Extend its Water and Wastewater Service Area in Sumter County is hereby granted. It is further

ORDERED that Attachment A to this Order is incorporated herein by reference. It is further

ORDERED that this docket shall be closed.

By ORDER of the Florida Public Service Commission this 15th day of November, 2004.
