In re: Petition for rate increase by Progress
Energy Florida, Inc.

DOCKET NO. 050078-EI
ORDER NO. PSC-05-0800-CFO-EI
ISSUED: August 4, 2005

ORDER GRANTING IN PART AND DENYING IN PART
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 04235-05)

On April 29, 2005, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Progress Energy Florida, Inc. (PEF) filed a request for confidential classification of portions of certain schedules to PEF's Minimum Filing Requirements (MFRs) attached to its Petition for Rate Increase (Document No. 04235-05).

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information" (subsection e).

PEF contends that portions of the MFR schedules fall within these categories and thus constitutes proprietary confidential business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. PEF contends that this information contains proprietary confidential business information that is intended to be and is treated as private and that has not been voluntarily disclosed to the public. PEF states that portions of the MFR schedules contain projected and estimated figures for short and long term debt, off balance sheet obligations, preferred stock, and common equity, along with other sensitive business information that PEF does not make publicly available. According to PEF, disclosure of this information would impair PEF's competitive business interests. PEF states that if its suppliers, investors, or competitors were made aware of PEF's estimated figures for short and long term debt, off balance sheet obligations, preferred stock, and common equity, they may adjust their behavior in the marketplace with respect to activities such as pricing and the acquisition and provision of goods, materials, and services.

The information for which PEF requests confidential classification and the ruling on each item is set forth in the following table. For those items granted confidential classification, I find it confidential for the reasons identified by the company. The request for confidential treatment of the information contained on MFR Schedule D-2, Page 4 of 4, Columns (A)-(F), Lines 3-15 is

denied as shown below because that portion of the Schedule relates to historical information for non-regulated affiliate operations and the holding company. Disclosure of historical information for non-regulated affiliate operations and the holding company would not impair PEF's competitive business interests. Furthermore, this information is publicly available in PEF's Securities and Exchange Commission and Federal Energy Regulatory Commission filings.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless PEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

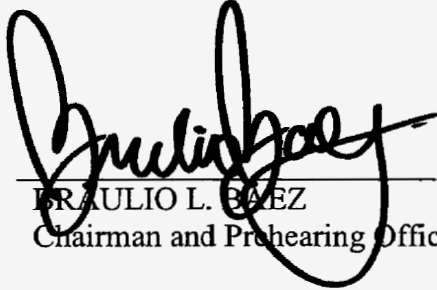

Based on the foregoing, it is
