ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION
AND MOTION FOR TEMPORARY PROTECTIVE ORDER
(DOCUMENT NO. 10131-05)

On October 19, 2005, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Tampa Electric Company (TECO) filed a request for confidential classification of portions of its responses to Office of Public Counsel's (OPC) Third Set of Interrogatories (Document No. 10131-05) By the same filing, TECO also requested a Temporary Protective Order, pursuant to Rule 25-22.006(6), Florida Administrative Code, covering the above-referenced responses.

Request for Confidential Classification

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to, "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" (subsection d), and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information" (subsection e).

TECO contends that portions of its responses to Interrogatory Nos. 23 and 26 in OPC's Third Set of Interrogatories fall within these categories and thus constitute proprietary confidential business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. TECO states that this information is intended to be and is treated by TECO as private and has not been publicly disclosed.

TECO contends that the information contained on Bates Stamp Page No. 1 of its response to Interrogatory No. 23 in OPC's Third Set of Interrogatories would disclose TECO's current purchasing strategy with respect to fuel and purchased power and risk exposure. TECO contends that those who have an interest in supplying TECO's fuel and purchased power needs could use this information to help them negotiate more favorable terms, to the detriment of TECO and its

ratepayers. TECO asserts that those who have an interest in supplying its fuel and purchased power needs could learn the company's plans and needs and use that information in exacting better prices for meeting those needs.

TECO contends that the information contained on Bates Stamp Page No. 4 of its response to Interrogatory No. 26 in OPC's Third Set of Interrogatories discloses the identity of the counterparties with whom it is executing financial hedges. According to TECO, this would afford competitors with information with which to access the hedging strategy of TECO, including the size, characteristics, and financial capability of TECO's counterparties and type of hedging that TECO has in place. TECO asserts that this information could enable those competitors to extract higher prices from TECO than they might otherwise agree to in similar hedging agreements in the future.

Upon review, it appears that the above-referenced information contained in portions of TECO's responses to OPC's Third Set of Interrogatories satisfies the criteria set forth in Section 366.093(3), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. The information constitutes "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, this information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless TECO or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Motion for Temporary Protective Order

TECO also seeks protection of the documents as provided in Section 366.093(2), Florida Statutes, and Rule 25-22.006(6), Florida Administrative Code. Section 366.093(2), Florida Statutes, directs that all records produced pursuant to a discovery request for which proprietary confidential status is requested shall be treated by any party subject to public records law as confidential and exempt from the public records law, Section 119.07(1), Florida Statutes. Rule 25-22.006(6), Florida Administrative Code, codifies the Commission's policy protecting confidential information from public disclosure during the discovery process in a manner that is not overly burdensome to both parties. Rule 25-22.006, in pertinent part, states:

(6)(a) In any formal proceeding before the Commission, any utility or other person may request a protective order protecting proprietary confidential business information from discovery. Upon a showing by a utility or other person and a finding by the Commission that the material is entitled to protection, the Commission shall enter a protective order limiting discovery in the manner

provided for in Rule 1.280, Florida Rules of Civil Procedure. The protective order shall specify how the confidential information is to be handled during the course of the proceeding and prescribe measures for protecting the information from disclosure outside the proceeding.

In addition, Rule 25-22.006(6)(c), Florida Administrative Code, states that if a party allows OPC to inspect or take possession of utility information, then that "utility may request a temporary protective order exempting the information from section 119.07(1), F.S."

Upon consideration, TECO's Motion for Temporary Protective Order of certain responses to OPC's discovery, is granted. I find that TECO has demonstrated that the material requested by OPC appears to be proprietary confidential business information. Accordingly, this information will be protected from disclosure pursuant to Rule 25-22.006(6), Florida Administrative Code. As provided in Order No. PSC-05-0281-PCO-EI, issued March 15, 2005, the Order Establishing Procedure for this docket, OPC is required to provide TECO and all other parties seven days notice of its intent to use any confidential information at the hearing.

Based on the foregoing, it is

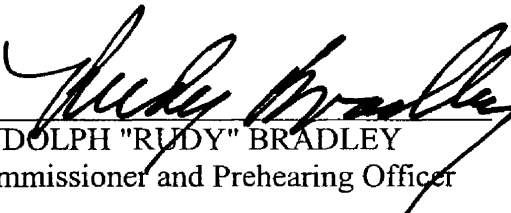

ORDERED by Commissioner Rudolph "Rudy" Bradley, as Prehearing Officer, that Tampa Electric Company's Request for Confidential Classification of Document No. 10131-05 is granted. It is further

ORDERED that the information in Document No. 10131-05 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein. It is further

ORDERED that the Motion for Temporary Protective Order filed by Tampa Electric Company is granted.

By ORDER of Commissioner Rudolph "Rudy" Bradley, as Prehearing Officer, this
2nd day of November, 2005.
