DOCKET NO. 050001-EI
ORDER NO. PSC-05-1073-CFO-EI
ISSUED: November 2, 2005

ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 09922-05)

On October 14, 2005, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Progress Energy Florida, Inc. (PEF) filed a request for confidential classification of portions of Exhibit JP-1S to the supplemental testimony of PEF witness Javier Portuondo, filed October 14, 2005 (Document No. 09922-05).

Section 366.093(1), Florida Statutes, provides that “any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act].” Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company’s ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” (subsection d); and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information” (subsection e).

PEF contends that portions of Exhibit JP-1S to the supplemental testimony of PEF witness Javier Portuondo fall within these categories and thus constitute proprietary confidential business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. PEF states that this information is intended to be and is treated by PEF as private and has not been publicly disclosed.

PEF contends that the information contained on Page 2, Lines 1-4, and Page 4, Lines 1-8, of Part D to Mr. Portuondo’s Exhibit JP-1S concerns data related to confidential wholesale power purchase and sales contracts, including the number of megawatts for each purchase or sale. PEF asserts that, in combination with other non-confidential cost data provided in the exhibit, this information could be used to determine the capacity charges for each contract. According to PEF, disclosure of this information would enable wholesale providers to determine the prices of their competitors, which would likely result in greater price convergence in future negotiations. PEF contends that suppliers would no longer need to make their best offers to ensure the competitiveness of their prices against the disclosed prices. PEF states that the disclosure of this information would impair the efforts of PEF to contract for goods or services on favorable terms. PEF asserts that disclosure of the capacity charges paid by PEF’s wholesale

customers would provide an unfair advantage to competitors pursuing such customers. PEF states that the information relates to the competitive interests of PEF and its affiliates, the disclosure of which would impair their competitive businesses.

Upon review, it appears that the above-referenced information contained in Exhibit JP-1S to the supplemental testimony of PEF witness Javier Portuondo satisfies the criteria set forth in Section 366.093(3), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms,” and “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, this information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless PEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Rudolph “Rudy” Bradley, as Prehearing Officer, that Progress Energy Florida, Inc’s Request for Confidential Classification of Document No. 09922-05 is granted. It is further

ORDERED that the information in Document No. 09922-05 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Rudolph "Rudy" Bradley, as Prehearing Officer, this
2nd day of November, 2005.
