

BEFORE THE PUBLIC SERVICE COMMISSION

In re: Application for certificates to provide water and wastewater service in Okeechobee County by Grove Utilities, Inc.      DOCKET NO. 060601-WS  
ORDER NO. PSC-07-0181-FOF-WS  
ISSUED: February 27, 2007

The following Commissioners participated in the disposition of this matter:

LISA POLAK EDGAR, Chairman  
MATTHEW M. CARTER II  
KATRINA J. McMURRIAN

ORDER GRANTING WATER CERTIFICATE NO. 633-W AND WASTEWATER  
CERTIFICATE NO. 542-S

BY THE COMMISSION:

Background

On September 11, 2006, Grove Utilities, Inc. (Grove or utility) submitted an application for original water and wastewater certificates in Okeechobee County, Florida, along with a Motion for Temporary Rule Waiver of Rule 25-30.033(1)(h), (j), (k), (m), (r), (t), (u), (v) and (w), Florida Administrative Code (F.A.C.), which request the information necessary for setting initial rates and charges. The utility's proposed service territory comprises approximately nine square miles in the northeastern corner of Okeechobee County which is currently being used for citrus agriculture activities. The area is located in the South Florida Water Management District, which is considered a critical water supply problem area.

Grove Community Development Corporation (affiliated developer) intends to develop a self-contained, active-adult community over the next 18 years in the proposed service area with an estimated 15,000 residential units and 3.0 million square feet of commercial development. Grove was incorporated on May 16, 2006, for purposes of providing the development with water and wastewater service which is estimated to commence in July of 2010. Completion of the development plan is anticipated to occur in January of 2008.

Pursuant to Section 120.542, Florida Statutes (F.S.), this Commission granted the utility's Motion for Temporary Waiver by Proposed Agency Action Order No. PSC-06-1015-PAA-WS (PAA Order), issued December 11, 2006. After receiving no objection, we issued Consummating Order No. PSC-07-0014-CO-WS, on January 3, 2007, making the PAA Order final and effective.

Pursuant to Section 367.031, F.S., we must grant or deny an application for a certificate of authorization within 90 days after the official filing date of the completed application. In this case, the application was completed upon the issuance of the Consummating Order on the

FPSC-COMMISSION CLERK

temporary rule waiver, making April 2, 2007, the deadline for our decision on the original certificates.

This Order addresses the request for original water and wastewater certificates. The utility anticipates filing the information necessary for rates and charges as early as the 4<sup>th</sup> quarter of 2007. We have jurisdiction pursuant to Sections 367.031 and 367.045, F.S.

#### Granting of Certificates

As stated above, the utility filed an application for original certificates to provide water and wastewater service on September 11, 2006. The application is in compliance with the governing statutes, Sections 367.031 and 367.045, F.S., Rule 25-30.033, F.A.C., and other administrative rules concerning an application for an original certificate and initial rates and charges.

**Notice.** Pursuant to Rule 25-30.030, F.A.C., the application contains evidence that the required notices were given. No objections to the application were received by this Commission and the time for filing such has expired.

**Service Territory.** The utility has provided an adequate service territory map. Our staff has verified that the map accurately represents the territory described in Attachment A. As noted above, the territory comprises approximately nine square miles in Okeechobee County.

**Consistency with Comprehensive Plans.** Pursuant to a memorandum of understanding with the Department of Community Affairs (DCA), on October 31, 2006, the DCA filed its comments on the need for service as well as the project's consistency with the current comprehensive plan for Okeechobee County. While the DCA's comments indicated that the proposed project was not consistent with the County's current comprehensive plan, the DCA recognized that an amendment to the comprehensive plan was being prepared such that the proposed project would be consistent. Therefore, the DCA concluded that if the County's comprehensive plan was amended as planned, then the applicant's proposed central water and wastewater utility systems would be appropriate. Based on the DCA's comments, our staff requested that the utility provide its estimate for when its development plan will be approved, including the timeline to complete the process. In its response filed on December 21, 2006, the utility indicated that its Application for Development Approval was filed with Okeechobee County in April of 2006 and the challenge period is expected to end in January of 2008. Beginning in January of 2008, the utility shall file a report in the docket indicating the status of its development plan. This requirement shall continue annually thereafter until the information on rates and charges is filed.

**Public Interest.** Rule 25-30.033(1)(e), F.A.C., requires that the applicant provide a statement showing its financial and technical ability to provide service, the need for service, and the steps the applicant has taken to determine if there are any other utilities in the area that could potentially provide service. The application contains a balance sheet for the affiliated developer showing its assets and liabilities as of July 31, 2006. The balance sheet appears to show sufficient resources to fund development for the proposed project until it can be self-sustaining.

In addition, the application contains a letter from the affiliated developer dated July 20, 2006, in which it pledges to make the financial and operating commitment necessary for Grove to be successful in its endeavor to provide water and wastewater services to the residents and businesses within its proposed service territory.

The application indicates that the utility's development and management teams include the same individuals responsible for the start-up and management of the water and wastewater company providing service to the Town of Ave Maria. Also, the Barron Collier Company, Ltd., which holds a 50% interest in the development of the Town of Ave Maria, also holds a 50% interest in the development of Grove along with Evans Properties, Inc., which is the owner of the land. These two entities have retained the services of a national water and wastewater engineering firm to provide utility master planning and engineering services.

The application contains a request for service dated July 20, 2006, from the affiliated developer to the utility. The letter indicates that there will be a need for water and wastewater service within the proposed service area by July 2010, assuming the comprehensive plan amendment and development plan are approved as planned.

The application contains a description of the nearest water and wastewater systems in Okeechobee County and the neighboring counties of Indian River and St. Lucie. According to the information provided, there is no system in Okeechobee County closer than 22 miles from the proposed development. The nearest point of contact to Indian River County's Urban Service Area is 15.5 miles away. Indian River County also owns and operates a wastewater treatment plant approximately six miles from the proposed development, but it is a small facility with no plans for expansion. The nearest St. Lucie County facility is over 30 miles from the proposed service area.

**Conclusion.** Based upon the above, we find that the applicant has shown that there is a need for water and wastewater service in the proposed service area and that it is in the best position to provide such service. The applicant has also demonstrated that it has the financial and technical ability to provide the service. We therefore find that the Grove's application for original water and wastewater certificates is in the public interest, and the utility shall be granted Certificates Nos. 633-W and 542-S. The effective date shall be the date of the Commission vote. The resultant order shall serve as Grove Utilities, Inc.'s water and wastewater certificates and shall be retained by the utility as such. Beginning in January of 2008, the utility shall file a report in the docket indicating the status of its development plan. This requirement shall continue annually thereafter until the information on rates and charges is filed.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Grove Utilities, Inc.'s application for original water and wastewater certificates is in the public interest, and the utility shall be granted Certificates Nos. 633-W and 542-S. It is further

ORDERED that this order shall serve as Grove Utilities, Inc.'s water and wastewater certificates and shall be retained by the utility as such. It is further

ORDERED that beginning in January of 2008, the utility shall file a report in the docket indicating the status of its development plan. This requirement shall continue annually thereafter until the information on rates and charges is filed. It is further

ORDERED that this docket shall remain open pending the filing of the information necessary to establish rates and charges, as well as proof of ownership of the land under the proposed utility facilities, and our subsequent decision on the appropriate rates and charges.

By ORDER of the Florida Public Service Commission this 27th day of February, 2007.

BLANCA S. BAYÓ, Director  
Division of the Commission Clerk  
and Administrative Services

( S E A L )

RRJ

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Director, Division of the Commission Clerk and Administrative Services, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with

ORDER NO.PSC-07-0181-FOF-WS

DOCKET NO. 060601-WS

the Director, Division of the Commission Clerk and Administrative Services and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
