DOCKET NO. 110007-EI  
ORDER NO. PSC-11-0354-CFO-EI  
ISSUED: August 24, 2011

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S  
REQUEST FOR CONFIDENTIAL CLASSIFICATION  
(DOCUMENT NO. 01803-11)

On March 17, 2011, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a request for confidential classification of certain information provided in response to Staff's First Set of Interrogatories, No. 3 filed in this docket (Document No. 01803-11).

Request for Confidential Classification

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Pursuant to Section 366.093(3), F.S., proprietary confidential business information includes information: 1) that is intended to be and is treated by the company as private; 2) that has not been voluntarily disclosed to the public; and 3) that, if disclosed, would cause harm to the company's ratepayers or business operations. Confidential business information includes, but is not limited to "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information" *Id.* at (e).

FPL asserts that portions of the information contained in Document No. 01803-11, as more specifically described in Exhibit C to its request, "relates to FPL's cost of estimating and construction management practices for solar projects" and that the "information is intended to be and is treated by FPL as private and its confidentiality has been maintained." Thus, FPL contends that the information is confidential business information as defined by, and entitled to protection pursuant to, Section 366.093, F.S.

Ruling

Upon review, I find that the information identified in Document No. 01803-11, as more specifically described in Exhibit C to FPL's request, relates to FPL's cost of estimating and construction management practices for solar projects. The information relates to competitive interests, which, if disclosed, would cause harm to FPL's ratepayers or business operations. This satisfies the criteria for classification as proprietary confidential business information set forth in Section 366.093, F.S. Thus, the information shall be granted confidential classification.

Based on the foregoing, it is
