

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Application for approval of transfer of Horizon Homes of Central Florida, Inc. and Five Land Group, LLC's water and wastewater systems to Aqua Utilities Florida, Inc., and for amendment of Certificate Nos. 507-W and 441-S, in Sumter County.

DOCKET NO. 100114-WS
ORDER NO. PSC-11-0377-PAA-WS
ISSUED: September 12, 2011

The following Commissioners participated in the disposition of this matter:

ART GRAHAM, Chairman
LISA POLAK EDGAR
RONALD A. BRISÉ
EDUARDO E. BALBIS
JULIE I. BROWN

NOTICE OF PROPOSED AGENCY ACTION
ORDER APPROVING NET BOOK VALUE, ACQUISITION ADJUSTMENT,
AND METER INSTALLATION CHARGES
AND
FINAL ORDER APPROVING TRANSFER,
AMENDMENT OF CERTIFICATE NOS. 507-W AND 441-S AND
EXISTING RATES AND CHARGES

BY THE COMMISSION:

NOTICE is hereby given by the Florida Public Service Commission that all of the actions discussed herein, except the transfer of Horizon Homes of Central Florida, Inc. and Five Land Group, LLC's (Sellers) Jumper Creek water and wastewater systems to Aqua Utilities Florida, Inc. (AUF or Utility), amendment of AUF's water and wastewater certificates in Sumter County and existing rates and charges, are preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code (F.A.C.).

BACKGROUND

On March 10, 2010, an application was filed seeking approval of the transfer of the Sellers' Jumper Creek water and wastewater systems to AUF and for amendment of AUF's water and wastewater certificates in Sumter County. Jumper Creek currently provides water and wastewater service to approximately 45 single-family homes in the Jumper Creek Manor development. AUF anticipates that Jumper Creek will serve approximately 115 residential connections when it reaches build out. The development is in the Southwest Florida Water Management District and is not in a water use caution area.

DOCUMENT NUMBER DATE

06532 SEP 12 =

FPSC-COMMISSION CLERK

Prior to the transfer of Jumper Creek, the systems were owned by the Jumper Creek Manor Homeowners' Association, Inc. (HOA). The HOA, as a nonprofit entity, was exempt from Commission regulation, pursuant to Section 367.022(7), Florida Statutes (F.S.). On December 14, 2007, the HOA transferred its interests in the Jumper Creek systems to Jumper Creek Joint Venture, which then transferred its interest in the Jumper Creek systems to AUF. On December 31, 2007, AUF began operating and maintaining the systems and on July 29, 2008, AUF filed an application for the transfer in Docket No. 080517-WS.

The recommendation in Docket No. 080517-WS was deferred from the April 7, 2009 Agenda Conference. On April 10, 2009, Commission staff met with representatives of AUF to discuss the application of Rule 25-30.0371, F.A.C., regarding acquisition adjustments. By letter dated April 27, 2009, AUF confirmed that it relied on the rule in place, both prior to and at the time of the closing, and requested that it be applied to the Jumper Creek transfer. On July 8, 2009, AUF made several proposals to address our concerns related to its acquisition of the Jumper Creek systems. A revised recommendation on the matter was filed on August 6, 2009. By letter dated August 12, 2009, AUF withdrew its application for transfer prior to the Agenda Conference and Docket No. 080517-WS was closed on August 14, 2009.

On March 10, 2010, a new application for the transfer was filed and the instant docket was opened. In its application, AUF indicates that it made repeated and concerted attempts to unwind its conditional acquisition of the Jumper Creek systems, but received no response from the Sellers confirming the agreement to unwind. Instead, AUF states that the Sellers repeatedly signaled that they would not assume the responsibility of owning and maintaining the systems. Therefore, AUF has continued to operate and maintain the Jumper Creek systems pending our decision on this application.

In its March 10, 2010 filing, AUF expressed a willingness for the application to be processed under a number of different acquisition adjustment scenarios. Effective November 22, 2010, we adopted changes to Rule 25-30.0371, F.A.C., related to acquisition adjustments resulting from the sale of a system at a premium or discount.¹ By letter dated March 31, 2011, AUF clarified that it does not object to applying the revised acquisition adjustment rule and further waives any rights it has for the application to be processed under the acquisition adjustment rule in existence at the time of the original filing. We have jurisdiction pursuant to Sections 367.031, 367.045, 367.071, 367.091, and 367.101, F.S.

DECISION

I. Transfer of Jumper Creek Water and Wastewater System and Amendment of Certificate No. 507-W and 441-S

As stated above, AUF filed an application on March 10, 2010, for approval of the transfer of the Jumper Creek water and wastewater systems to AUF and for amendment of AUF's water

¹ Order No. PSC-10-0668-FOF-WS, issued November 3, 2010, in Docket No. 100338-WS, In re: Initiation of rulemaking to amend Rule 25-30.0371, F.A.C., pertaining to Acquisition Adjustments for water and wastewater utilities.

and wastewater certificates in Sumter County. The application is in compliance with the governing statutes, Sections 367.045 and 367.071, F.S., and other pertinent statutes and administrative rules concerning applications for transfer and amendment of certificates. Pursuant to Section 367.071(1), F.S., the transfer was effective December 31, 2007, contingent upon our approval. Prior to the transfer, the systems were exempt from our regulation.

The application contains proof of compliance with the noticing provisions set forth in Rule 25-30.030, F.A.C. No objections to the notice have been filed and the time for filing objections has expired. In addition, there have been no complaints filed related to AUF's provision of service to Jumper Creek. The application contains a description of the transferred territory, a detailed system map, and an adequate territory map. A description of the territory being transferred is appended hereto as Attachment A. The application contains an unrecorded copy of a warranty deed executed on December 14, 2007, as evidence that AUF owns the land upon which the treatment facilities are located. Within 30 days of the date of the order approving the transfer, AUF shall file a recorded copy of the warranty deed.

The application contains a copy of the purchase agreement which includes the purchase price, terms of payment, and a list of the assets purchased. Jumper Creek's assets were purchased by AUF for \$100,000, which was financed through the use of short-term funds provided by AUF's parent, Aqua America, Inc. There are no customer deposits, guaranteed revenue contracts, developer agreements, customer advances, or leases that must be disposed of in relation to the transfer.

The Jumper Creek water system consists of two wells with a combined capacity of 110,000 gallons per day (gpd). Liquid chlorine is used for disinfection. The wastewater treatment plant is rated at 35,000 gpd, permitted on an annual average daily flow. Effluent is disposed of in a rapid infiltration basin. The application contains a statement that the Utility's systems are in satisfactory condition and in compliance with all applicable standards set by the Florida Department of Environmental Protection (DEP). Our staff has confirmed with the DEP that the Utility's systems are currently in compliance with all applicable DEP standards.

Since the Jumper Creek systems were exempt from our regulation when previously owned by the HOA, the HOA was not required to submit annual reports nor remit regulatory assessment fees (RAFs). It has been verified that AUF is current on annual reports for its Sumter County certificates and there are no outstanding RAFs, fines, or refunds due. It was also verified that AUF included the Jumper Creek systems in its 2008, 2009, and 2010 annual reports and RAFs. AUF shall continue to be responsible for submitting all future annual reports and remitting all future RAFs for the Jumper Creek systems.

Pursuant to Section 367.071(1), F.S., we must make a determination that the proposed transfer is in the public interest. Since the Sellers were unable to unwind the purchase agreement, AUF appears to be the only viable alternative for continued water and wastewater service for the Jumper Creek customers. In this respect it should be noted that AUF has been providing water and wastewater services to Jumper Creek customers since December 31, 2007, in compliance with DEP standards. As previously mentioned, no complaints have been filed with the Commission related to AUF's provision of service to Jumper Creek. Therefore, it

appears that AUF has adequately demonstrated its technical and financial ability to continue to provide effective service to the amended territory, pursuant to Rule 25-30.037(2)(j), F.A.C. Also, AUF has agreed to the use in this docket of the our recently revised Rule 25-30.0371, F.A.C., on acquisition adjustments.

Therefore, we find that it is in the public interest to approve the transfer of Horizon Homes of Central Florida, Inc. and Five Land Group, LLC's Jumper Creek water and wastewater facilities to AUF, and this transfer shall be effective as of December 31, 2007. The territory being transferred is described in Attachment A. This order shall serve as AUF's water and wastewater certificate and shall be retained by AUF. AUF shall continue to be responsible for submitting all future annual reports and remitting regulatory assessment fees for the Jumper Creek systems. Within 30 days of the date of this order, AUF shall file a recorded copy of the warranty deed for the land on which the water and wastewater treatment facilities are located.

II. Net Book Value

As discussed above, the Jumper Creek water and wastewater systems were originally owned by the HOA. AUF provided original costs for the systems based upon the books and records of the prior owner and the original source documents that were available. Commission staff reviewed the original cost study, the methodology used, and the proposed original cost for the water and wastewater systems. The Utility's proposed net book values of \$327,494 for water and \$176,581 for wastewater are shown on Schedule No. 1. Net book values are for informational purposes, and are not intended to formally establish rate base nor do they include normal rate making adjustments for used and useful plant or working capital.

Utility Plant in Service (UPIS)

The Jumper Creek net book value balance as of December 31, 2007, included total depreciable UPIS of \$495,547 for water and \$387,551 for wastewater. The water system costs include structures and improvements, water treatment equipment, services, meters, and fire hydrants. The wastewater system costs include the facilities for structures and improvements, force and collection mains, manholes, pumping equipment, and treatment and disposal equipment. The proposed costs appear reasonable. Therefore, we approve the UPIS balances of \$495,547 for water and \$387,551 for wastewater, as of December 31, 2007.

Land & Land Rights

Jumper Creek recorded \$2,271 for the .33 acre of land on which the water treatment plant is located and \$18,722 for the 2.72 acres of land on which the wastewater plant is located. The National Association of Regulatory Utility Commissioners' Uniform System of Accounts (NARUC's USOA) states that the cost of land should be recorded at its original cost when first dedicated to utility service. Based on the original cost of the land, the land balances of \$2,271 for the water system and \$18,722 for the wastewater treatment plant and lift stations appear reasonable and therefore are approved.

Accumulated Depreciation

Jumper Creek recorded accumulated depreciation balances of \$22,855 for water and \$18,401 for wastewater, as of December 31, 2007. The accumulated depreciation balances were based upon the guideline rates for average service lives, as set forth in Rule 25-30.140, F.A.C. Thus, we are in agreement with the Utility and the accumulated depreciation balances for Jumper Creek's water and wastewater systems shall be \$22,855 and \$18,401, respectively, as of December 31, 2007.

Contributions-in-Aid-of-Construction (CIAC) and Amortization of CIAC

Evidence was requested to support that the cost of the water transmission and distribution system and the wastewater collection system were not written off to cost of goods sold on the developer's tax returns. AUF was unable to obtain the original developer's tax returns and is in agreement that, without such documentation, the plant costs attributable to the water transmission and distribution system and the wastewater collection system should be imputed as CIAC, pursuant to Rule 25-30.570, F.A.C. Therefore, we find that the cost of the water transmission and distribution lines of \$154,596 and the wastewater collection system of \$221,828 be imputed as CIAC, pursuant to Rule 25-30.570, F.A.C.

Using a composite net book value based on the guidelines for average service lives as set forth in Rule 25-30.140, F.A.C., the appropriate amount of water and wastewater amortization of CIAC, as of December 31, 2007, shall be \$7,127 and \$10,537 respectively.

Conclusion

Therefore, the net book value for transfer purposes as of December 31, 2007, shall be \$327,494 for Jumper Creek's water system and \$176,581 for the wastewater system, as shown on Schedule No. 1. AUF shall be required to record the balances as of December 31, 2007, as shown on Schedule No. 1, for Jumper Creek's water and wastewater plant and accumulated depreciation accounts, pursuant to the NARUC's USOA. Within 30 days of the date of the final order, AUF shall be required to provide a statement that its books have been updated to reflect these net book values and balances and that these numbers will also be reflected in the Utility's 2011 annual report.

III. Acquisition Adjustment

An acquisition adjustment results when the purchase price differs from the original cost of the assets (net book value) adjusted to the time of the acquisition. Effective November 11, 2010, and subsequent to the filing of this application, a revision to Rule 25-30.0371, F.A.C., on acquisition adjustments, was implemented. As noted, supra, AUF has agreed to the use in this docket of revised Rule 25-20.0371, F.A.C.

Prior to the adoption of the changes to Rule 25-30.0371, F.A.C., a negative acquisition adjustment was amortized over five years. The revised rule extends the amortization period for negative acquisition adjustments. Specifically, pursuant to Rule 25-30.0371(3), F.A.C., if the

purchase price is equal to or less than 80 percent of net book value, a negative acquisition adjustment shall be included in rate base and will be equal to 80 percent of net book value less the purchase price. Pursuant to Rule 25-30.0371(4)(b)2., F.A.C., if the purchase price is equal to or less than 50 percent of net book value, then 50 percent of the negative acquisition adjustment is amortized over a seven-year period and 50 percent amortized over the remaining life of the assets, beginning with the date of the issuance of the order approving the transfer of assets. Because we have approved the transfer of the Jumper Creek water and wastewater systems to AUF, the application of the revised acquisition adjustment rule shall extend the time frame over which the full amount of AUF's investment in Jumper Creek would be included in AUF's rate base.

The calculation of AUF's Jumper Creek acquisition adjustment is shown below. We allocated the purchase price of \$100,000 based on the amount of water and wastewater rate base.

	<u>Water System</u>	<u>Wastewater System</u>
Net book value as of December 31, 2007	\$327,494	\$176,581
80 percent of net book value	\$261,995	\$141,265
Purchase Price	\$ 64,900	\$ 35,100
Negative acquisition adjustment	\$197,095	\$106,165

Therefore, we find that, pursuant to revised Rule 25-30.0371, F.A.C., a negative acquisition adjustment of \$197,095 for the Jumper Creek water system and \$106,165 for the wastewater system shall be recognized for rate-making purposes. Beginning with the date of the issuance of the order approving the transfer, 50 percent of the negative acquisition adjustment, which is \$98,548 for the water system and \$53,082 for the wastewater system, shall be amortized over a seven-year period and the remaining 50 percent shall be amortized over the remaining life of the assets.

IV. Existing Rates and Charges

Rule 25-9.044(1), F.A.C., provides that, in the case of a change of ownership or control of a utility, the rates, classifications, and regulations of the former owner must continue unless authorized to change. Since the Jumper Creek water and wastewater systems were previously exempt from our regulation, pursuant to Section 367.022(7), F.S., as a non-profit HOA providing service solely to members, the current rates have never been approved.

According to the application, Jumper Creek's water and wastewater rates were established by the HOA in 2006. The water rate is \$25.00 per month for usage of up to 10,000 gallons. Usage over 10,000 gallons per month is \$2.50 per 1,000 gallons. The wastewater rate is a flat rate of \$40.00 per month. According to the 2010 Annual Reports filed by AUF for the Jumper Creek water and wastewater systems, the existing rates generated annual revenues of \$27,447 with a total net loss of \$43,748. While Jumper Creek's existing rates do not appear to be fully compensatory, AUF has not requested that they be changed. In future AUF rate cases, the Jumper Creek systems shall be combined with AUF's existing water and wastewater systems for rate making purposes.

Therefore, we approve Jumper Creek's existing water and wastewater rates as shown on Schedule No. 2. AUF is required to charge the approved rates until authorized to change them by this Commission in a subsequent proceeding. The rates shall be effective for services rendered on or after the stamped approval date on the tariff sheets, pursuant to Rule 25-30.475(1), F.A.C.

V. Meter Installation Charges

Pursuant to Section 367.101, F.S., we are required to set just and reasonable charges and conditions for service availability. AUF has proposed a meter installation charge of \$220.00 for a 5/8" x 3/4" Electronic Radio Transmitter (ERT) meter. ERT meters emit radio signals which can be read by a repeater-transmitter. As a result, the meters can be read remotely from the street without requiring access to a customer's property and the data can be downloaded directly to a computer for billing. In addition, the automated readings make it possible to read customer meters on the same day each month.

AUF's proposed meter installation charge is consistent with AUF's approved tariff for meter installation for other AUF systems. All meter sizes other than 5/8" x 3/4" are proposed at actual cost. Existing customers are not required to pay meter installation charges.

Thus, we find that AUF's proposed meter installation charges as shown on Schedule No. 2 shall be approved. AUF shall be required to charge the approved charges until authorized to change them by this Commission in a subsequent proceeding. The approved charges shall be effective for connections made on or after the stamped approval date on the tariff sheet, pursuant to Rule 25-30.475(1), F.A.C.

VI. Initial Customer Deposits, Miscellaneous Service Charges, and Late Payment Charge

AUF requested initial customer deposits, miscellaneous service charges, and a late payment charge, pursuant to Section 367.091, F.S. This statute authorizes us to establish, increase, or change a rate or charge other than monthly rates or service availability charges.

Initial Customer Deposits

AUF requests initial customer deposits for the Jumper Creek water and wastewater systems of \$50.00 and \$80.00, respectively. The proposed deposits are based on two times an average monthly bill for water and wastewater service. Jumper Creek's customers all use residential 5/8" x 3/4" meters. Deposits in the amount of two times an average monthly bill are consistent with Rule 25-30.311, F.A.C., which contains the criteria for collecting, administering, and refunding customer deposits.

As justification for its proposed initial customer deposits, AUF indicates that, if utilities do not collect adequate deposits to recover the cost of providing service, the result would be an increase in its bad debt expense. Ultimately, bad debt expense is included in the Utility's revenue requirement and, therefore, included in the cost of service charged to the general body of ratepayers. AUF also notes that collecting initial customer deposits is consistent with one of the

fundamental principles of rate making, ensuring that the cost of providing service is recovered from the cost-causer. We find that the Utility's proposed initial customer deposits shown on Schedule No. 2 of \$50.00 for water service and \$80.00 for wastewater service are consistent with our rules and are therefore approved.

Miscellaneous Service Charges and Late Charge

Pursuant to Rule 25-30.460, F.A.C., utilities may apply for miscellaneous service charges, including initial connection, normal reconnection, violation reconnection, and premises visit charges. In addition, AUF is requesting a late payment charge. AUF's requested charges shown on Schedule No. 2 are consistent with the standard miscellaneous service charges and late payment charge currently approved for AUF in Order No. PSC-09-0385-FOF-WS ("Final Order").² For ease of administration and fairness, AUF requests that these same charges be approved for the Jumper Creek systems. We agree that this request is reasonable and therefore AUF's proposed miscellaneous charges and late payment charge shown on Schedule No. 2 are approved.

Based on the foregoing, AUF's request for initial customer deposits, miscellaneous service charges, and late payment charge shown on Schedule No. 2 are approved. AUF shall be required to charge the approved charges until authorized to change them by this Commission in a subsequent proceeding. The Utility shall be required to file a proposed customer notice to reflect the Commission-approved charges for the water and wastewater systems. The approved charges shall be effective for services rendered on or after the stamped approval date of the tariff sheets, pursuant to Rule 25-30.475(1), F.A.C. In addition, the approved charges shall not be implemented until Commission staff has approved the proposed customer notice. The Utility shall provide proof of the date notice was given within ten days after the date of the notice.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that we find that the transfer of Horizon Homes of Central Florida, Inc. and Five Land Group, LLC's Jumper Creek water and wastewater facilities to AUF is in the public interest. It is further

ORDERED that the request for transfer is approved as set forth herein and shall be effective as of December 31, 2007. It is further

ORDERED that within 30 days of the date of this order, AUF shall file a recorded copy of the warranty deed for the land on which the water and wastewater treatment facilities are located. It is further

² Issued May 29, 2009, in Docket No. 080121-WS, In re: Application for increase in water and wastewater rates in Alachua, Brevard, DeSoto, Highlands, Lake, Lee, Marion, Orange, Palm Beach, Pasco, Polk, Putnam, Seminole, Sumter, Volusia, and Washington Counties by Aqua Utilities Florida, Inc.

ORDER NO. PSC-11-0377-PAA-WS

DOCKET NO. 100127-WS

PAGE 9

ORDERED that if no protest to the proposed agency action issues is filed by a substantially affected person within 21 days of the date of this order, a consummating order shall be issued and the docket closed administratively upon receipt of a recorded warranty deed and a statement that AUF's books have been updated to reflect the Commission-approved net book values and account balances for the Jumper Creek's systems and that these numbers will also be reflected in the Utility's 2011 annual report.

By ORDER of the Florida Public Service Commission this 12th day of September, 2011.

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

As identified in the body of this Order, except the transfer of Horizon Homes of Central Florida, Inc. and Five Land Group, LLC's Jumper Creek water and wastewater systems to Aqua Utilities Florida, Inc., amendment of Aqua Utilities Florida, Inc.'s water and wastewater certificates in Sumter County and existing rates and charges, our action is preliminary in nature. Any person whose substantial interests are affected by the action proposed by this Order may file a petition for a formal proceeding, in the form provided by Rule 28-106.201, Florida Administrative Code. This petition must be received by the Office of Commission Clerk, at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, by the close of business on October 3, 2011. If such a petition is filed, mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing. In the absence of such a petition, this Order shall become effective and final upon the issuance of a Consummating Order.

Any objection or protest filed in this docket before the issuance date of this Order is considered abandoned unless it satisfies the foregoing conditions and is renewed within the specified protest period.

Any party adversely affected by the Commission's final action in this matter may request: (1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water or wastewater utility by filing a notice of appeal with the Office of Commission Clerk and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
