DOCKET NO. 120001-EI  
ORDER NO. PSC-12-0169-CFO-EI  
ISSUED: April 2, 2012

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S REQUEST FOR  
CONFIDENTIAL CLASSIFICATION OF INFORMATION PROVIDED  
PURSUANT TO AUDIT NO. 09-041-4-4  
(DOCUMENT NO. 05485-09 X-REF. DOCUMENT NOS. 04935-09 AND 04936-09)

On June 2, 2009, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed its Request for Confidential Classification (Request) of certain information submitted by FPL in connection with the Audit Control No. 09-041-4-4 (the Audit). (Document No. 05458-09 x-ref. Document Nos. 04935-09 and 04936-09).

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Paragraphs (3)(b),(c),(d), and (e) of Section 366.093 F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nternal auditing controls and reports of internal auditors;" "[s]ecurity measures, systems, or procedures;" "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

FPL contends that the designated portions of the information contained in its responses to the Audit, as more specifically described in the line-by-line/field-by-field justification attached as its Exhibit C to the Request, fall within these categories and, thus, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL states that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

FPL avers that portions of the documents or materials contain proprietary confidential business information on purchased power which is competitively sensitive data that, if disclosed, would place FPL at a competitive disadvantage. FPL states that it and Southern Co share this information, and its disclosure could make data available to the marketplace that would otherwise not be available at this level of detail.

FPSC-COMMISSION CLERK

FPL asserts that some of the information contains or constitutes internal auditing controls and reports of internal auditors or information related to same. FPL concludes that this internal auditing information is confidential pursuant to Section 366.093(3)(b), F.S.

FPL states that some of the information constitutes or contains customer-specific account information which if disclosed would impair FPL's competitive advantage. According to FPL, its corporate policy is to not disclose customer-specific account information. FPL asserts that its policy includes, but is not limited to: customer names, addresses, telephone numbers, account numbers, rates, billing determinants, conservation savings, and bills. FPL states that it treats such information as confidential and does not disclose it, except as required by law, to entities or persons other than the customer absent the customer's consent.

FPL avers that certain of the material includes FPL's security measures and systems or procedures. According to FPL, this material should be deemed confidential pursuant to Section 366.093(3)(c), F.S.

FPL states that certain of the information included in the request is proprietary confidential business information. FPL asserts that it includes negotiated agreements for services of FPL facilities. According to FPL, this information, if made public, would disclose certain procedures to the detriment of FPL and its customers, and would impair FPL's efforts to enter into contracts on commercially favorable terms in the future. FPL concludes this information is entitled to confidential treatment.

FPL avers that some of the information provided pursuant to the Audit request contains material which is proprietary confidential business information because it contains or constitutes contractual data such as pricing and other terms, payment records, and vendor and supplier rates. FPL argues that the disclosure of this information would impair FPL's efforts to contract for gas and oil procurement on favorable terms for the benefit of its customers in the future. FPL also asserts that revealing the information would impair the competitive interest of FPL and its vendors.

FPL asserts that certain of the documents or materials are Commission auditor's notes which contain information on actions taken by the FPL board of directors, as set forth in FPL board minutes and consents. FPL states that such actions, minutes and consents, and therefore the Commission auditors notes related thereto, are considered by both FPL Group and FPL to be highly sensitive, proprietary confidential business information.

#### **Time Period For Confidential Classification**

According to Section 366.093(4), F.S., confidential classification may only extend for 18 months from the issuance of an Order granting confidential classification unless "the Commission finds, for good cause, that the protection from disclosure shall be for a specified longer period." FPL has not requested a period longer than the 18 months.

**Ruling**

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information constitutes “[i]nternal auditing controls and reports of internal auditors;” “[s]ecurity measures, systems, or procedures;” “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;” or “[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 05458-09 x-ref. Document Nos. 04935-09 and 04936-09 shall be granted confidential classification..

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Eduardo E. Balbis, as Prehearing Officer, that Florida Power & Light Company’s Request for Confidential Classification of Document No. 05458-09 x-ref. Document Nos. 04935-09 and 04936-09 is granted. It is further

ORDERED that the information in Document No. 05458-09 x-ref. Document Nos. 04935-09 and 04936-09 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order will be the only notification by the Commission to the parties concerning the expiration of the confidentiality time period.

By ORDER of Commissioner Eduardo E. Balbis, as Prehearing Officer, this 2nd day  
of April, 2012.
