outside the utility's existing service territory. There is no well on the land and only one barn. The property owner wishes to have water supplied to the adjacent property and is requesting service from the utility.

The utility's application is in compliance with the governing statute, Section 367.045, F.S., and other pertinent statutes and administrative rules concerning applications for amendment of certificate. The application contained a check in the amount of \$100 which is the correct filing fee pursuant to Rule 25-30.020, F.A.C. The application contained proof of compliance with the noticing provisions set forth in Rule 25-30.030, F.A.C. We received no objections to the application, and the time for filing objections has expired.

Pursuant to Rule 25-30.036(2)(a) and (b), F.A.C., the utility provided a statement that the new territory will not exceed twenty-five equivalent residential connections; there is no other utility in the area of the proposed territory that is willing and capable of providing reasonably adequate service to the new territory; and service is not otherwise available. Pursuant to Rule 25-30.036(2)(d), F.A.C., the utility also submitted evidence that it owns the land upon which the facilities are located. In addition, an adequate service territory map, territory description, and customer description have been provided as prescribed by Rule 25-30.036(3)(e), (i), and (m), F.A.C. A description of the proposed territory is appended to this order as Attachment A. The utility has filed revised tariff sheets reflecting the amended area. In its application, it also referenced the rate case that established its most recent rates, and provided an affidavit that its tariffs and annual reports are on file with this Commission.

The utility's water system is under the jurisdiction of the Department of Environmental Protection. There are no outstanding violations, citations, or notices of violation issued to the utility. Water supplied to the amended property will be provided from the utility's water distribution system located at the nearby RHS. The property owner intends to obtain a utility easement from another existing RHS property owner or from a common piece of property owned by the RHS HOA. A single service line, approximately 200 feet in length, will be installed to an existing water main located on Lake Yale Drive in the RHS Section 1. The water meter will be located at the water main on Lake Yale Drive and the property owner will be responsible for the service line from the water meter to the amended property.

We have jurisdiction pursuant to Section 367.045, F.S. Based on the above information, we hereby approve Raintree Harbor Utilities, Inc.'s application to amend its territory, as described in Attachment A, effective the date of this Order. We find that the application is in compliance with Section 367.045, F.S., and Rule 25-30.036, F.A.C, and hereby approve the amendment to Certificate No. 539-W. The utility shall apply the rates and charges approved by this Commission to the customer of the amended area.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that we hereby approve Raintree Harbor Utilities, Inc.'s application to amend its territory, as described in Attachment A, and the amendment to Certificate No. 539-W, effective March 12, 2013. It is further

ORDERED that Raintree Harbor Utilities, Inc. shall apply the rates and charges approved by this Commission to the customer of the amended area. It is further

ORDERED that no further action is necessary and this docket shall be closed upon issuance of this Order.
