In re: Petition for approval of optional non-standard meter rider, by Florida Power & Light Company.

DOCKET NO. 130223-EI
ORDER NO. PSC-14-0494-CFO-EI
ISSUED: September 16, 2014

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 04945-14 x-ref. 04838-14)

On August 28, 2014, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a notice of intent to request confidential classification for certain information contained in its response to the Martin petitioners' Amended First Set of Interrogatories Nos. 24 and 37 (Document No. 04838-14). On September 4, 2014, FPL filed its request for confidential classification of these materials (Document No. 04945-14).

Section 366.093(1), F.S., provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from Section 119.07(1) [the Public Records Act]." Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Sections 366.093(3)(d) and (e), F.S., provide that proprietary confidential business information includes, but is not limited to "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information."

The information provided in response to the Martin petitioners' Amended First Set of Interrogatories No. 24 consists of detailed programming elements for activities related to Web-enrollment, customer system automation, and customer care enrollment for the smart meter program. FPL and the vendor both consider this information to be proprietary and contend that the disclosure of this information would significantly adversely affect the business of both entities. The information provided in response to the Martin petitioners' Amended First Set of Interrogatories No. 37 consists of the costs for Silver Spring Networks' smart meter software and its software meter maintenance contract. FPL contends that the disclosure of this contract information would negatively impact FPL's ability to contract with this vendor in the future and therefore, its ability to secure similar services at the lowest possible price. Additionally, FPL states that disclosure of this contract information would violate its non-disclosure agreement with Silver Spring Networks. FPL states that it has kept the information contained in its responses confidential and has not disclosed them to the public.

Time Period For Confidential Classification

FPL requests confidential classification for this information for a period of 18 months. According to Section 366.093(4), F.S., confidential classification may only extend for 18 months from the issuance of an Order granting confidential classification unless “the Commission finds, for good cause, that the protection from disclosure shall be for a specified longer period.”

Ruling

Upon review, it appears the above-referenced information satisfies the criteria set forth in Sections 366.093(3)(d) and (e), F.S., for classification as proprietary confidential business information. The information constitutes “[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms” and “information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.” Thus, the information identified in Document No. 04945-14, x-ref. 04838-14, shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is

ORDERED by Commissioner Lisa Polak Edgar, as Prehearing Officer, that Florida Power & Light Company’s Request for Confidential Classification of Document No. 04945-14, x-ref. 04838-14, is granted. It is further

ORDERED that the information in Document No. 04945-14, x-ref. 04838-14, for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein. It is further

ORDERED that the Motion for Temporary Protective Order filed by Florida Power & Light Company is granted.

By ORDER of Commissioner Lisa Polak Edgar, as Prehearing Officer, this 16th day of September, 2014.
