In re: Nuclear cost recovery clause.

DOCKET NO. 150009-EI
ORDER NO. PSC-15-0288-CFO-EI
ISSUED: July 15, 2015

ORDER GRANTING DUKE ENERGY FLORIDA, INC.'S REQUEST FOR CONFIDENTIAL CLASSIFICATION (DOCUMENT NOS. 01506-15 & 01507-15)

On March 18, 2015, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, Inc. (DEF), filed a Request for Confidential Classification (Request) (Document No. 01506-15) of portions of the testimonies and exhibits filed as part of DEF's March 2, 2015 True-Up Filing (True-Up) (Docket No.01507-15). This Request was filed in Docket No. 150009-EI.

Request for Confidential Classification

DEF is seeking confidential classification of the following materials within the True-Up: portions of the testimony of DEF witness Thomas G. Foster and attached Exhibit No. TGF-1; portions of the testimony of DEF witness Christopher M. Fallon and attached Exhibit Nos. CMF-1, CMF-2, CMF-3, CMF-4, CMF-5, and CMF-6; and portions of the testimony of DEF witness Mark R. Teague and attached Exhibit Nos. MT-4 and MT-5. DEF asserts that this information is intended to be and is treated by DEF as private and has not been publicly disclosed.

DEF contends that portions of DEF witness Fallon's testimony and exhibits contain confidential and sensitive contractual information and cost numbers regarding the Levy Nuclear Project (LNP). Disclosure of this information, DEF argues, would impair DEF's competitive business interests and ability to negotiate favorable contracts, as well as violate contractual non-disclosure provisions of those contracts.

DEF asserts that DEF witness Fallon's exhibits also contain confidential settlement information between DEF, Westinghouse Electric Company and Stone & Webster, Inc., and DEF's vendors regarding the disposition of long lead equipment (LLE) for the LNP. DEF states that public disclosure of this information would adversely impact DEF's competitive business interests, and ongoing LLE disposition process and wind down negotiations. DEF argues that this information is entitled to protection pursuant to Section 366.093(3)(d), F.S.

DEF states that portions of DEF witness Teague's testimony and exhibits contains confidential information regarding DEF's analysis of options for disposal of extended power uprate project (EPU) equipment. DEF asserts that disclosure of this information would adversely affect DEF's competitive business interests, and should be protected pursuant to Section 366.093(3)(e), F.S.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093, F.S., provides that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information appears to be information concerning bids or other contractual data, the disclosure of which would impair the efforts of DEF or its affiliates to contract for goods or services on favorable terms and information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. Thus, the information identified in Document No. 01507-15 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Chairman Art Graham, as Prehearing Officer, that Duke Energy Florida, Inc.'s Request for Confidential Classification of Document No. 01507-15 is granted. It is further

ORDERED that the information in Document No. 01507-15, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Chairman Art Graham, as Prehearing Officer, this 15th day of
July, 2015.
