clause with generating performance incentive
factor.

DOCKET NO. 20230001-EI
ORDER NO. PSC-2023-0285-CFO-EI
ISSUED: September 14, 2023

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 04600-2023)

On August 8, 2023, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a Request for Confidential Classification (Request) of certain information provided in its responses to Office of Public Counsel's (OPC) Second Request for Production of Documents Nos. 10, 12, 15, 16 and 27 (Document No. 04600-2023).

Request for Confidential Classification

FPL contends that the information contained in its responses to OPC's Second Request for Production of Documents Nos. 10, 12, 15, 16 and 27, more specifically described in Exhibit C to its Request, constitute proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL asserts that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

The information contained in FPL's response to OPC's Second Request for Production of Documents No. 10 consists of documents reviewed by FPL's witness Dean Curtland in the preparation of his June 9, 2023 testimony. OPC's Second Request for Production of Documents No. 12 consists of the original equipment manufacturer's documents for Turkey Point Unit 4's permanent magnet generator and exciter, including maintenance requirements, testing specifications, and operating requirements. OPC's Second Request for Production of Documents Nos. 15 and 16 consist of the test results for Turkey Point 4's permanent magnet generator for the last 10 years and documents supporting FPL's position that the permanent magnet generator was properly maintained. OPC's Second Request for Production of Documents No. 27 consists of documentation of Siemens' inspection of the exciter seal installation. FPL contends the disclosure of this information would impair its ability to execute business transactions on the most favorable terms for the benefit of its customers. FPL also contends that if made public, this information would adversely affect the competitive business interests of both FPL and its suppliers. Finally, FPL states that the material provided contains Siemens' proprietary information that FPL has agreed to keep confidential. Therefore, FPL argues that this information is protected by Sections 366.093(3)(d) and (e), F.S.

Ruling

Section 366.093(1), F.S., provides that records the Florida Public Service Commission (Commission) has found to contain proprietary business information shall be kept confidential and shall be exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary

confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The contractual data, if disclosed, could adversely impact FPL's competitive interests as well as the competitive interests of its supplier. Thus, the information identified in Document No. 04600-2023 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Mike La Rosa, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 04600-2023 is granted, as set forth herein. It is further

ORDERED that the information in Document No. 04600-2023, for which confidential classification has been granted, shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Mike La Rosa, as Prehearing Officer, this 14th day of September, 2023.

Mike La Rosa
Commissioner and Prehearing Officer

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

Any party adversely affected by this order, which is preliminary, procedural or intermediate in nature, may request: (1) reconsideration within 10 days pursuant to Rule 25-22.0376, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court, in the case of an electric, gas or telephone utility, or the First District Court of Appeal, in the case of a water or wastewater utility. A motion for reconsideration shall be filed with the Office of Commission Clerk, in the form prescribed by Rule 25-22.0376, Florida Administrative Code. Judicial review of a preliminary, procedural or intermediate ruling or order is available if review of the final action will not provide an adequate remedy. Such review may be requested from the appropriate court, as described above, pursuant to Rule 9.100, Florida Rules of Appellate Procedure.
