FPSC-RECORDS/REPORTING

870098-EI

Ladies and Gentlemen:

Thank you for informing us of your concerns regarding FPL's operation of its Turkey Point nuclear units. We too are concerned and are planning to conduct a thorough, in-depth review of the Turkey Point outages. Hearings are to be held on September 15, 1989. Industrial intervenors, who pay large electric bills due to the large amounts of electricity they consume, will participate in the investigation. Florida's Office of Public Counsel, representing citizens' groups such as yours, will also participate. A final decision on the matter is expected in February of 1990.

As you may know, the courts require us to have a documentable reason for disallowing fuel cost recovery for an electric utility. The fact that the unit experienced an unanticipated outage is insufficient. The Commission must find imprudence on the part of the company, in failing to prevent the outage, before we can disallow cost recovery.

I hope the above communicates to you that we are not taking FPL's pass-through of fuel costs lightly. We will be meticulous in our investigation. If all or a portion of replacement fuel costs are disallowed, customers will be given a refund of the fuel related charges they paid, including interest from the date of payment.

Thank you for your interest in this matter.

Sincerely,

*John T. Herndon*

Re: Docket Number 870098EI

Dear Mr. Tribble:

It has come to our attention that the Florida Public Service Commission (PSC) has opened a docket relating to the creation of reserve funds established to decommission nuclear power plants operating in the state. Since Gainesville Regional Utilities is a part owner of the Crystal River 3 Nuclear Power Plant, any rulemaking or administrative actions in this regard effect GRU's substantial interests. For this reason, GRU would like to receive copies of all notices, orders and other matters filed in regard to this or related proceedings.

Please transmit the requested information to:

Ms. Ann Carlin, Esq.  
Gainesville Regional Utilities  
P. O. Box 490, Station 52  
Gainesville, FL 32602

Thank you.

Respectfully yours,

Attached is a Staff Assignment/Change Advice Form for the above referenced docket reassigning OPR staff from EAG to DAFA.

Since nuclear decommissioning is an extension of depreciation, i.e., cost of removal, salvage, etc., it would be more appropriate to make the Bureau of Depreciation OPR on this docket.

Attached is an excerpt of the agenda for the Commission's regular conference to be held at 9:30 A.M. on June 30, 1987 in Room 106 of the Fletcher Building, 101 E. Gaines Street, Tallahassee, Florida. Our records indicate that you are a party to or have requested notice in this docket. You may therefore want to be present at this conference and address the Commission regarding this matter. The attached agenda listing summarizes the issues to be decided on this item.

If you do attend and wish to address the Commission, please sign the appearance register when you arrive. It will be located in the rear of the hearing room near the entrance and will provide space for you to place your name under the appropriate agenda item. The Chairman will ask for your comments following the staff's discussion of the item. Any comments you wish to make should be limited to approximately five minutes.

If you have any questions regarding this please feel free to contact me.
