ORDER CLOSING DOCKET

BY THE COMMISSION:

On April 4, 1989, Miles Grant Water and Sewer Company requested a test year approval for a general rate increase. The utility requested the rate increase in order that the cost of a 900,000 gallon upset holding tank, required by the Department of Environmental Regulation, could be included in rate base. However, in an effort to eliminate excessive rate case expense, Miles Grant subsequently requested a limited proceeding, by letter dated July 26, 1989. This limited proceeding is being handled in Docket No. 890978-SU. On August 14, realizing there was no further need for a general rate case, the utility requested that Docket No. 890468-WS be closed. Since there is no further action to be taken in this docket, we find it appropriate to close this docket.

Based on the foregoing, it is, therefore

ORDERED by the Florida Public Service Commission that this docket is hereby closed.

ORDERED by the Florida Public Service Commission
