Re: Docket No. 900039-TL, Resolution by the Orange County
Board of County Commissioners for EAS Between the Mt. Dora
Exchange and the Apopka, Orlando, Winter Garden, Winter
Park, East Orange, Reedy Creek, Windermere, and Lake Buena
Vista Exchanges

Dear Mr. Tribble:

Enclosed for filing in the above-referenced docket are the
original and fifteen (15) copies of United Telephone Company
of Florida's response to Order No. 22567.

A copy of this filing has been provided to all Parties of
Record.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan N. Berg".

Alan N. Berg

Lake Buena Vista, Florida 32830

Alan N. Berg
Senior Attorney

Analysis Statement
United Telephone Company of Florida
Docket No. 900039-TL, Order No. 22567
Resolution by the Orange County Board of County
Commissioners for EAS between the Mt. Dora Exchange and
the Apopka, Orlando, Winter Garden, Winter Park, East Orange,
Reedy Creek, Windermere and Lake Buena Vista Exchanges

Mt. Dora Exchange

The calling volumes identified on Schedule I, Exhibit 1, show a range for messages per main station per month from .04 to 4.24 for the routes studied. The percentage of customers making two or more calls per month ranges from a low of 1% to a high of 39% for the one-way interLATA routes. None of the routes meet the minimum calling volume levels identified in FPSC Rule 25-4.060(2)(a) of three (3) or more M/M/M with fifty percent (50%) of the subscribers making two or more calls. However, three (3) of the interLATA routes, Mt. Dora Exchange to Apopka, Mt. Dora Exchange to Orlando and Mt. Dora Exchange to Winter Park, do meet the calling rate requirement with 3.18 M/M/M, 4.24 M/M/M and 3.47 M/M/M, respectively.

The calling volume identified on Schedule II, Exhibit 2, for the Mt. Dora Exchange to Orlando interLATA route does meet the community of interest qualification levels outlined in FPSC Rule 25-4.060(2). The calling volume for the Mt. Dora Exchange to Apopka route does not meet the minimum calling level requirement but does meet the calling rate requirement with 2.07 M/M/M. The other routes do not meet the qualification levels. Per the rule, "a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per main and equivalent main station per month (M/M/M) and fifty percent (50%) or more of the subscribers in the exchanges involved make at least one call per month." For the Mt. Dora Exchange to Orlando route, the United portion shows a calling rate of 4.24 with 51% of the subscribers making at least one call per month.

This is an interLATA study and several exchanges are non-equal access exchanges; therefore, the messages shown are pure toll messages. Message traffic does not include Feature Group B access or originating Invwats (800) access to interexchange carriers. There is no revenue shown on the one-way studies where the originating exchange is equal access (Apopka, Winter Garden and Winter Park). This is due to total revenue not being available for all messages shown. Similarly, on the two-way summaries, where one exchange is equal access, the revenue has been omitted. Exhibits 47 and 48 provide a separate analysis for one-way and two-way average revenue per message.

It is United Telephone Company of Florida's opinion that only the calling volumes identified in Schedule II for the Mt. Dora Exchange to Orlando route are sufficient to warrant further consideration under FPSC Rule 25-4.060.

Mt. Dora Exchange Information

Residential Access Lines Per Square Mile (Land Area)

<u>Exchange</u>	<u>Square Miles</u>	<u>Res. A. L.</u>	<u>Res A.L. Per Square Mile</u>
Mt. Dora	80.4	8,009	99.6

Analysis Statement
United Telephone Company of Florida
Docket No. 900039-TL, Order No. 22567
Resolution by the Orange County Board of County
Commissioners for EAS between the Mt. Dora Exchange and
the Apopka, Orlando, Winter Garden, Winter Park, East Orange,
Reedy Creek, Windermere and Lake Buena Vista Exchanges

Mt. Dora Pocket

The calling volumes identified on Schedule I, Exhibit 3, show a range for messages per main station per month from .01 to 8.18 for the interLATA routes studied. The percentage of customers making two or more calls per month ranges from a low of 0% to a high of 57% for the one-way routes. The Mt. Dora Pocket to Apopka and Mt. Dora Pocket to Orlando routes meet the minimum calling volume levels identified in FPSC Rule 25-4.060(2)(a) of three (3) or more M/M/M with fifty percent (50%) of the subscribers making two or more calls. The Mt. Dora Pocket to Winter Park route, however, falls 2% short of the required calling level.

The calling volume identified on Schedule II, Exhibit 4, for the Mt. Dora Pocket to Orlando interLATA route does meet the community of interest qualification levels outlined in FPSC Rule 25-4.060(2). Per the rule, "a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per main and equivalent main station per month (M/M/M) and fifty percent (50%) or more of the subscribers in the exchanges involved make at least one call per month."

The remainder of the routes studied do not meet the FPSC Rule requirements.

This is an interLATA study and several exchanges are non-equal access exchanges; therefore, the messages shown are pure toll messages. Message traffic does not include Feature Group B access or originating Invats (800) access to interexchange carriers. There is no revenue shown on the one-way studies where the originating exchange is equal access (Apopka, Winter Garden and Winter Park). This is due to total revenue not being available for all messages shown. Similarly, on the two-way summaries, where one exchange is equal access, the revenue has been omitted. Exhibits 47 and 48 provide a separate analysis for one-way and two-way average revenue per message.

It is United Telephone Company of Florida's opinion that only the calling volumes identified in Schedules I and II for the Mt. Dora Pocket to Apopka and the Mt. Dora Pocket to Orlando route are sufficient to warrant further consideration under FPSC Rule 25-4.060.

Mt. Dora Pocket Information

Residential Access Lines Per Square Mile (Land Area)

<u>Exchange</u>	<u>Square Miles</u>	<u>Res. A. L.</u>	<u>Res A.L. Per Square Mile</u>
Mt. Dora Pocket	8.0	650	81.3

MT. DORA EXCHANGE

The Mt. Dora Exchange covers 80.4 square miles, eight of which are in Orange County, with the majority in Lake County. Included in this exchange are the communities of Mt. Plymouth, Sorrento, Lake Jem and Tangerine. The City of Mt. Dora is located on the north side of Lake Dora and is bound by U. S. 441 on its north and east sides. The exchange extends 13 miles east through Sorrento and Mt. Plymouth to the Wekiva River and south approximately 4 miles into Orange County. The City of Mt. Dora is made up of mostly retirees and service type jobs are most prevalent. The children go to Lake County Schools and Tavares is the county seat for all county business.

Retirees, winter visitors and agriculture are the mainstays of the economy in this exchange. Small retail stores and professional services cater to permanent and temporary residents and the quantity of antique shops has led to the name of "Antique Center of Central Florida" for Mt. Dora. Foliage nurseries and vegetable farms, along with the pre-cooling plants and packing houses necessary to maintain them, have become the predominant agriculture factor since the demise of the citrus industry in 1985.

Of concern is the expected growth of State Road 46 from Interstate 4 to Mt. Dora. Over 5000 vehicles travel this road daily. This area will be one of the higher growth areas in Lake County in the near future. The effect the northwest beltway will have on this area will be tremendous. Population is expected to move from Orlando to Lake County to get away from the rush and congested areas. People in the Wekiva area of the Mt. Dora Exchange are expected to do most of their shopping in Sanford or Winter Park.

U. S. 441, a major corridor highway that runs from Orlando north through the Mt. Dora Exchange, is traveled by many motorists each day getting to and from work. Also, many tourists travel this road daily. According to the State Road Department Stratgetic Transportation Plan, additional lanes will be added from Orlando north through Apopka in the year 2000.

The community of interest for the Lake County portion of the Mt. Dora Exchange is Lake County. The community of interest for that portion of Orange County in the Mt. Dora Exchange is Apopka. Any county business would have to be conducted there, including school attendance.

United Telephone Company of Florida
Docket No. 900039-TL, Order No. 22567
Resolution by the Orange County Board of County
Commissioners for EAS between the Mt. Dora Exchange and
the Apopka, Orlando, Winter Garden, Winter Park, East Orange,
Reedy Creek, Windermere and Lake Buena Vista Exchanges

- Exhibit 1 - Completed Schedule I as requested in Order No. 22567. It depicts the various routes studied for the Mt. Dora Exchange in order of highest to lowest M/M/M and identifies the number/percent of customers making two or more calls.
- Exhibit 2 - Completed Schedule II as requested in Order No. 22567. It depicts the routes studied for the Mt. Dora Exchange in order of highest to lowest M/M/M and identifies the number/percent of customers making one or more calls.
- Exhibit 3 - Completed Schedule I as requested in Order No. 22567. It depicts the various routes studied for the Mt. Dora Pocket in order of highest to lowest M/M/M and identifies the number/percent of customers making two or more calls.
- Exhibit 4 - Completed Schedule II as requested in Order No. 22567. It depicts the routes studied for the Mt. Dora Pocket in order of highest to lowest M/M/M and identifies the number/percent of customers making one or more calls.
- Exhibit 5 - Mt. Dora Exchange to Apopka two-way traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 6 - Mt. Dora Exchange to Reedy Creek two-way traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 7 - Mt. Dora Exchange to Windermere two-way traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 8 - Mt. Dora Exchange to Winter Garden two-way traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
- Exhibit 9 - Mt. Dora Exchange to Winter Park two-way traffic study. Includes calculated calling rates and a detailed analysis of the distribution of calls among subscribers.
