ORDER APPROVING TARIFF

BY THE COMMISSION:

On April 12, 1990, Indiantown Telephone Systems, Inc. (Indiantown) filed a tariff to add the "Selective Class of Call Screening" to the miscellaneous service section of their tariff. The "Selective Class of Call Screening" is an operator service provided by Southern Bell Telephone and Telegraph Company (Southern Bell) via contract to Indiantown customers. When a toll call is attempted from a subscribed line, a signal flashes on the operator's screen informing that only collect, third party number, or credit card calls should be accepted for billing.

The "Selective Class of Call Screening" had been provided to Indiantown by Southern Bell at no charge since October 1, 1986 when the contract became effective. Indiantown has in turn been providing this service to its customers at no charge. However, on March 7, 1990, Southern Bell notified Indiantown of its intent to begin charging for the service. Southern Bell has established the monthly charge for this service at \$2.00 per access line. Indiantown has proposed the same rate in its tariff.

Presently, Indiantown has only one customer utilizing this service. The Martin Correctional Institute has 40 access lines supplied for their prison payphones. The revenue impact on this customer will be \$80 per month or \$960 per year. This added cost will be approximately 16% of Martin Correctional Institute's monthly bill.

Because only one customer subscribes to this service and the cost to that customer is relatively small compared to their overall monthly bill, we hereby approve this tariff filing.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Indiantown Telephone Systems, Inc.'s filing to tariff Selective Class of Call Screening Service is approved. It is further

ORDERED that this docket is hereby closed.

By ORDER of the Florida Public Service Commission, this 18th day of JUNE, 1990.
