**MEMORANDUM BRIEF
OF TAMPA ELECTRIC COMPANY**

Tampa Electric Company ("Tampa Electric" or "the company") submits the following as its Memorandum Brief in response to the Commission's direction at its September 11, 1990 Agenda Conference in the above matter. At such Agenda Conference the Commission noted that several motions for clarification of PAA Order No. 23235 had been filed. This was the order which established the guidelines for prioritization of contracts when calculating the subscription limit. In addition, other issues were raised at the Agenda Conference which prompted the Commission to call for briefs on these issues. Tampa Electric had not requested reconsideration of Order No. 23235.

Tampa Electric has reanalyzed the substance of Order No. 23235 and concludes that it can abide by the provisions of such order. Tampa Electric does not seek reconsideration of that order and sees no disputed issues of material fact. However, if a hearing or oral argument is scheduled in this docket, the company reserves its right to participate in same.

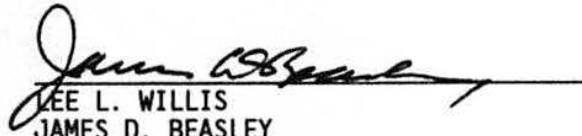

As a final observation, Tampa Electric recognizes that the Commission has recently voted to substitute individual utility avoided units in place of the statewide avoided unit concept. This may require a reconsideration

of the prioritization issue in the future. Tampa Electric reserves its right to participate in any such reconsideration.

DATED this 25th day of September, 1990.

Respectfully submitted,
