ORDER APPROVING TARIFF

BY THE COMMISSION:

On October 15, 1990, AT&T Communications of the Southern States, Inc. (ATT-C or the Company) filed revisions to its Channel Services tariff proposing to institute a discount program for its Accunet Spectrum of Digital Services (ASDS). The Multi-Service Volume Pricing Plan provides discounts based on ATT-C's total monthly charges billed to an ASDS customer. If the customer makes a minimum monthly revenue commitment for a period from one to five years, the Company will apply a fixed discount percentage to the monthly bill. The discounts range from 4% to 14%, depending upon the monthly revenue commitment and the term selected by the customer.

The Company indicates that this discount plan is targeted towards the relatively few large customers who account for the majority of the revenues to be derived from ASDS services. The Company expects that approximately 35 customers may consider this plan, generating \$181,000 in annual revenues. Also, potential revenue gain will result if the discounts are sufficient to attract new subscribers to ASDS or to induce existing customers to increase their use of these services.

We believe that the Company's proposed plan is an appropriate response to the highly concentrated nature of this market segment, and we, therefore, approve this tariff filing.

Based on the foregoing, it is
