

VOTE SHEET

DATE: April 30, 1991

RE: DOCKET NO. 900708-TL - Investigation of methodology to account for access charges in local exchange company (LEC) toll pricing.  
~~DOCKET NO. 910513-TL~~ Proposed tariff filing to add the aggregated optional calling plan filed by SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY. (T-90-309 filed 5/23/90)

Issue 1: Recommendation that the Commission adopt the following four guidelines for calculating local exchange carrier (LEC) access charges as a floor for MTS prices:

1. Toll revenues should cover access charges for the business and residential market segments individually.
2. Access charges should be calculated with originating access charges applied to non-conversation time.
3. Access charges should reflect the time-of-day distribution of the market under consideration.
4. The Busy Hour Minute of Capacity (BHMC) should be the average BHMC/Minute-of-use rate realized using the most recent monthly data available.

The effective date should be May 22, 1991. These guidelines should become final if no hearing is requested within 21 days of the date of the order in this docket.

**APPROVED**

Vote Sheet

Dockets Nos. 900708-TL and  
910513-TL

Issue 2: Recommendation that the Commission should not adopt Guideline 5 which would require LECs to impute the access rate associated with their actual network configuration. The Commission should modify Guideline 5 and require the LECs to impute the access rate associated with the network configuration which is dependent upon the targeted market segment. This guideline should become final if no hearing is requested within 21 days of the date of the order in this docket.

**APPROVED**

Issue 3: Recommendation that the Commission should not adopt Guideline 6 which requires the costs of billing and collection, advertising, marketing and promotion of the product to be included in setting the toll rates. However, the incremental costs of applicable billing and collection should be included in setting toll rates. The cost of advertising, marketing, and promotion of the product should not be included in setting the toll rates. This decision should become final if no hearing is requested within 21 days of the date of the order in this docket.

**APPROVED**

Issue 4: Recommendation that the Commission deny Southern Bell's proposed tariff filing to introduce the Aggregated Option Calling Plan (T-90-309 filed 5/23/90). The Company should refile its tariff to limit the discount toll service so that it is only available on lines which can only be used for those services, not any other, such as local.

**APPROVED**

Issue 5: Recommendation that the docket should remain open until the effective date of the proposed agency action order, assuming no protest is received.

**APPROVED**
