ORDER APPROVING TARIFF FILING

BY THE COMMISSION:

On June 25, 1991 General Telephone Company of Florida (GTE) filed tariff revisions to offer a promotion to waive the secondary service order charges for Dial Datalink service. The waiver is requested for 60 days beginning September 2, 1991, and ending on October 31, 1991.

Dial Datalink is a service by which a customer can upgrade an access line to meet higher quality transmission standards than those for regular voice transmission. The upgraded data access line will meet parameters developed to allow transmission speeds up to 4800 bits per second (bps). The Dial Datalink lines may also be used for voice communication.

The Company anticipates a net revenue impact for the promotion to be an increase in revenues of \$1,049.

We find that the waiver of the secondary service order charge for Dial Datalink service will increase customer awareness of the service and promote increased sales. Therefore, we approve the waiver. Currently, specific authority has not been granted to approve administratively a special promotion for this service. Thus, we find that administrative authority should be, and is hereby, extended for special promotions for Dial Datalink (or comparable) service when provided by GTE or any other telephone company.

This tariff shall become effective on August 24, 1991. If a timely protest is filed this tariff shall remain in effect with any increase held subject to refund pending resolution of the protest. If no timely protest is filed, this Docket shall be closed.

Based upon the foregoing, it is
