Docket No. 910578-EI

August 27, 1991

Issue 3: Recommendation that the major transmission alternatives have been adequately addressed.

APPROVED

Issue 4: Recommendation that the specific situations which indicate a need for the project have been adequately addressed. Single and double contingency violations were sufficiently proven by Florida Power Corporation's petition. Additional strategic benefits for the proposed project were also given, but do not specifically impact the need.

APPROVED

Issue 5: Recommendation that there will be adverse consequences to the electrical system if approval of the project is delayed or denied.

APPROVED

Issue 6: Recommendation that the DeBary Plant in Volusia County and the Winter Springs Substation in Seminole County are the appropriate starting and ending points for the project.

APPROVED

Issue 7: Recommendation that Florida Power Corporation has satisfied the informational requirements of Rule 25-22.0876, F.A.C.

APPROVED

Issue 8: Recommendation that this docket be closed.
