Re: Docket No. 910529-TL, Request by Pasco County Board of
County Commissioners for Extended Area Service between
All Pasco County Exchanges

Dear Mr. Tribble:

Enclosed for filing in the above-referenced docket are the
original and fifteen (15) copies of United Telephone Company
of Florida's response to Order No. 24718 and a Request for
Specified Confidential Classification. Also enclosed are
copies of the traffic studies labeled Exhibit B with
confidential information deleted.

The parties of record have received this same filing, with the
exception of Exhibit A information. Exhibit A contains the
traffic studies with the confidential information.

A copy of this filing has been provided to all Parties of
Record.

Sincerely,

A handwritten signature in cursive script, appearing to read "Alan N. Berg".

FPSC-RECORDS/REPORTING

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Request by Pasco County) Docket No. 910529-TL
Board of County Commissioners) Filed: September 13, 1991
Extended Area Service Between)
All Pasco County Exchanges)
_____)

**UNITED TELEPHONE COMPANY OF FLORIDA'S
REQUEST FOR SPECIFIED CONFIDENTIAL CLASSIFICATION**

United Telephone Company of Florida (United), pursuant to the provisions of Florida Public Service Commission (FPSC) rule 25-22.006, Florida Administrative Code, requests the Prehearing Officer to enter his or her order declaring that the information described below is confidential information as that term is defined in Rule 25-22.006(1)(a), and as such is exempt from Section 119.07, Florida Statutes (1989). In support of this Request, United states that:

1. On June 26, 1991, the Florida Public Service Commission issued Order No. 24718 in this Docket, which requested that United prepare traffic studies on the routes under consideration in this Docket.

Some of the routes considered in the traffic studies submitted are interLATA routes and the traffic on the routes represents confidential business information of AT&T, which is the primary carrier of traffic on these routes.

2. Rule 25-22.006(4), Florida Administrative Code, requires that confidential information be highlighted, and identified with the page and line at which the confidential material is found, and that the utility correlate the page and line identified with the specific justification proffered in support of the classification of such material.

The pages containing the confidential material with the confidential material highlighted are attached to the original only of this Request as Exhibit "A". Two copies of the pages containing confidential information with the confidential information blocked out with an opaque marker or other masking device are attached to the original only of this Request as Exhibit "B". Copies of this Request served on parties do not have Exhibit "A" attached and have only one copy of Exhibit "B" attached.

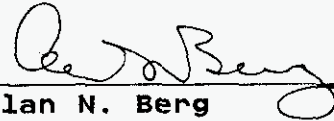

A listing of the pages and lines at which the confidential materials are found is attached to this Request as Exhibit "C". A listing correlating the pages and lines with the specific justification proffered in support of the classification of the confidential matter is attached to this Request as Exhibit "D".

3. Because the confidential data consists of traffic studies which delineate volumes of traffic, the information will remain confidential through the entire course of this proceeding and thereafter.

4. Upon conclusion of this Docket, United requests that the information described above be returned to United.

WHEREFORE, United Telephone Company of Florida requests that the Prehearing Officer enter his or her order declaring the information described above as falling within the specified confidential classification.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Alan N. Berg", is written over a horizontal line.

**Analysis Statement
United Telephone Company of Florida
Docket No. 910529-TL, Order No. 24718
Request by Pasco County Board of County Commissioners
for Extended Area Service between Pasco County Exchanges**

The calling volumes identified on Schedule I (Exhibit 1, Toll and OEAS, Option 2 traffic) show a range for messages per access line per month from .09 to 2.44 for the routes studied. The percentage of customers making two or more calls per month ranges from a low of 2% to a high of 29% for the one-way routes. None of the routes have the minimum calling volume levels identified in FPSC Rule 25-4.060(2)(a) of three (3) or more M/M/M with fifty percent (50%) of the subscribers making two or more calls.

The calling volumes identified on Schedule II (Exhibit 2, Toll and OEAS Option 2 traffic) show a range of messages from a low of .09 to 2.44 for the routes studied. The percentage of customers making one or more calls per month ranges from a low of 3% to 42%. These calling volumes do not fully meet the community of interest qualification levels outlined in Florida Public Service Commission Rule 25-4.060(2). Per the rule, "a sufficient degree of community of interest between exchanges, sufficient to warrant further proceedings, will be considered to exist when the combined two-way calling rate over each interexchange route under consideration equals or exceeds two (2) messages per main and equivalent main station per month (M/M/M) and fifty percent (50%) or more of the subscribers in the exchanges involved make at least one call per month."

The calling volumes identified on Schedule I (Exhibit 3, OEAS Option 1 traffic) show messages per access line per month of 44.96 with 92% of the OEAS customers making three or more OEAS calls per month. The calls are one way OEAS Option 1 traffic.

The calling volumes identified in Schedule II (Exhibit 4, OEAS Option 1 traffic) show messages per access line per month of 44.96 with 95% of OEAS customers making one or more OEAS calls per month. The calls are the United portion only of two-way EAS.

Dade City/San Antonio/Trilacoochee Exchange Information

Residential Access Lines Per Square Mile (Land Area)

<u>Exchange</u>	<u>Square Miles</u>	<u>Res. A.L.</u>	<u>Res. A.L. Per Square Mile</u>
Dade City	183.3*	7,107	38.77
San Antonio	70.3	1,872	26.63
Trilacoochee	32.0**	2,792	87.25

* Square miles within Pasco and Sumter Counties

** Square miles within Pasco, Sumter and Hernando Counties

Dade City

The Dade City exchange lies within Pasco and southeast Sumter County. Dade City is also the county seat for Pasco County. Growth in this exchange comes from the citrus, poultry and cattle industries. Business growth is expected to continue moving to the south of Dade City as more businesses move to the area. Several RV parks within this exchange draw retirees to this area during the winter months, which provides service oriented businesses to meet the needs of the retirees.

San Antonio

San Antonio is a small exchange which serves the communities of San Antonio, St. Leo, St. Joseph and Darby. Past growth was provided by citrus and cattle; however, the freezes during the 1980's have destroyed most of the citrus industry and few growers have replanted. Present growth comes from Travelers Rest Airstream Park and future growth is expected from large residential developments which were approved by the Pasco County Commission in 1989.

Trilacoochee

The Trilacoochee exchange serves the communities of Trilacoochee, Lacoochee, Trilby, Ridge Manor, Richloam and Slaughter. The exchange is small and rural, with growth continuing to be centered around Whispering Oaks Estates, a residential community located in Hernando County. This area has no major sources of employment, therefore, most of the residents are employed outside the exchange. Small service related businesses are all that is located within the exchange.

United Telephone Company of Florida
Docket No. 910529-TL, Order No. 24718

EXHIBIT D
Docket No. 910529-TL

REQUEST FOR CONFIDENTIAL TREATMENT OF TRAFFIC STUDIES

The information listed on all pages and line numbers in Exhibit C consists of market information including volumes of traffic on specific interLATA routes broken out in several different categories including volumes of messages by messages, minutes, revenues, time-of-day, and residence and business. In addition, averages of messages per access and by minutes per message, revenue per message, revenue per access line and revenue per calling customers are also provided.

The information included in the studies is completely or substantially AT&T traffic information. The public disclosure of this information would allow competitors of AT&T an undue advantage in pinpointing those routes or segments of routes which are most susceptible to competition. The information is even more detailed, and is at least as sensitive and as useful to competitors as the capacity information which the Commission held was entitled to confidential status in Order No. 21362, issued June 9, 1989.

No public benefit would offset the harm which would be caused by the public disclosure of this information.
