Re: Docket No. 900025-WS, Meter Installations

Dear Mr. Sims:

It has been brought to our attention that there are a significant number of open holes at meter sites located throughout the Shady Oaks subdivision. It is assumed that there may have been significant ground settling due to the recent installation of these meters, or that they may not have been properly filled in at all.

The utility is expected to do what is necessary to make sure that the holes are properly filled. This is in accordance with Commission rules regarding public safety and the installation and maintenance of utility facilities.

Please make sure that this problem is corrected. I will be in the area in the next few weeks, and will stop by to inspect the situation.

ACK _____ Thank you for your cooperation.
