Subject: VSAT installations

Foster,

The following information regarding VSAT installations is provided:

- NC -
- SC -
- GA -
- FL - 1150

This does not include the acquisition in Florida from September 1991, which will probably add between 100-150 locations after they decide which branches will remain from the merger. Hopefully, these will be put on our new synchonet terrestrial network we are installing to displace the many existing analog private lines still being used by) Let me know if there is anything else we can provide you on this.
