REQUEST: Please provide all available statistical distributions showing the percentage of intraLATA toll messages by mileage categories for (1) each local exchange class of service, (2) residence classes of service combined, (3) business classes of service combined, and (4) all classes of service combined.

RESPONSE: Toll mileage band distributions are not tracked by each individual exchange class of service. They are tracked by total Business, Residence, Public and Other. (The Other category includes messages for which the class of service is ambiguous or unknown.) Listed below are these distributions:
