Re: Water Meter size for a new 1318 SF home in
Turkey Creek

Dear Ms. Holman,

In Sept 1990 I met with Norwood Hope to make arrangements for connection to Turkey Creek Utilities Water System. This was prior to the start of construction of my new home located at 2914 Oak Drive.

To my surprise I was required to have a 1 inch meter! I was also required to have a plastic water shut off valve even though my plans included a much more substantial shut off valve. (The cost of the plastic shut off valve \$125⁰⁰)

The initial cost of water service for a 1 inch meter was \$1740, which I paid by check # 896 dated 9-27-90. A 5/8 x 3/4 inch meter would have cost \$1365⁰⁰.

Therefore, I paid more for a meter I do not need and I continue to pay for water services based on a 1 inch meter.

I hope this will be helpful in your investigation

Sincerely
D.M. Gross
