The Florida Division anticipates that service from Sunshine would benefit its ratepayers through increased production area supply options and the competitive effect created by receiving transportation service from more than one pipeline. Also, additional pipeline capacity options would allow the Florida Division to meet future supply demands on its system in a manner that is both timely and not unduly burdensome to its ratepayers.

WHEREFORE, based on the foregoing, the Florida Division of Chesapeake Utilities Corporation requests that its Petition to Intervene in this docket be granted.
