Tallahassee, FL. 32399-0850

Subject: Docket No. 930173-TL

Dear Mr. Tribble:

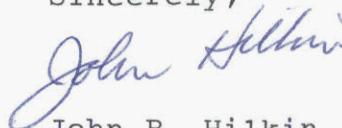

Further to our recent discussion about the traffic study affecting Polo Park & the 424 exchange, we would like to offer the following information for your files.

Collectively, our community has over 400 homes at this time, & growing daily. However, we have about 30% of our homeowners that travel back north for the summer months & thus do not use their phone service here during that time.

We feel that any traffic studies made during the summer months would not truly reflect the service level that is normal here. Rather, a more average period would be during February or March. We would hope that the telephone companies in this study could be made aware of this fact so a more representative time period could be analyzed.

We hope you will give this request a favorable consideration.
Thank you very much.

Sincerely,

John B. Hilkin
President
Polo Park Homeowners Assn

cc: Miss Ann Shelfer
