Dear Ms. Teasley:

Staff is in receipt of your application for an amendment in the above-referenced docket. However, after reviewing your application we have determined that the following deficiency must be corrected:

- (1) Rule 25-30.036(j), Florida Administrative Codes requires the applicant to provide a statement describing the capacity of the existing lines, the capacity of the treatment facilities, and the design capacity of the proposed extension.
- (2) Rule 25-30.036(k), Florida Administrative Codes requires the applicant to provide the numbers and dates of any permits issued for the proposed systems by the Department of Environment Regulation.
- (3) Rule 25-30.036(m), Florida Administrative Codes requires the applicant to provide a description of the types of customers anticipated to be served by the extension, i.e., single family homes, mobile homes, duplexes, golf course clubhouse, commercial, etc.

Staff is aware that the utility is currently serving the territory which the utility is requesting to be added in this docket. However, the utility is still required to submit the requested information to complete the processing of the application.
