TARIFF FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1
  
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the FPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
  
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

TARIFF FORMAT (Continued)

- D. Check Sheets - When a tariff filing is made with the FPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

FLORIDA INTEREXCHANGE TELECOMMUNICATIONS SERVICE

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

1.1. Definitions

Access Line - A transmission path which connects a subscriber location to the carrier's terminal location or switching center.

Application for Service - A standard order form which includes all pertinent billing, technical, and other descriptive information which will enable the carrier to provide the communication service as required.

Authorization Code - A numerical code, one or more of which are assigned to a subscriber to enable XIEX to identify use of service on his account and to bill the subscriber accordingly for such service. Multiple authorization codes may be assigned to a subscriber to identify individual users or groups of users on his account.

Authorized User - A person, firm, corporation, or other entity authorized by the subscriber to receive or send communications.

Bandwidth - The total frequency band, in hertz, allocated for a channel.

Cancellation of Order - A subscriber-initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion. Cancellation charges may apply.

Carrier - XIEX Telecommunications, Inc.

Custom Account Coding - Subscriber determined tables of unique project and/or account numbers for their private use.

Dedicated Access Lines ("DAL") - A group of leased lines which interconnect a switching system to a dedicated subscriber.

FLORIDA INTEREXCHANGE TELECOMMUNICATIONS SERVICE

1.1 Definitions (Continued)

Digital Signal Level 1 ("DS-1") - A 1.544 Mbit/s signal (T1 carrier).

Disconnection - The disconnection of a circuit, dedicated access line or port connection being used for existing service.

Holidays - XIEX's recognized holidays are:

New Year's Day	Labor Day
Memorial Day	Independence Day
Thanksgiving	Christmas

Interconnection - The connection of telephone equipment to the network; also, the connection of one carrier with another, i.e., the interface between carriers.

Other

Common Carrier - A person, firm, corporation, or entity regulated by the FPSC or the FCC which subscribes to carriers' communications services and facilities and resells these communications services and facilities to the public for a profit. Unless otherwise indicated herein, the term "other common carrier" when used in this tariff also means "subscriber" and includes entities which are brokers of the service (act as intermediaries for the purpose of reselling), those entities which are processors of the service (enhances the value of the service through substantial incurred costs) and those entities which are underlying carriers or providers of facilities.

Point of Presence ("POP") - Point at which responsibility for handling interLATA traffic changes over from the local telephone operating company to the interexchange carrier.

SECTION 2 - RULES AND REGULATIONS

2.1. Undertaking of Carrier

Carrier does not undertake to transmit messages, but offers the use of its facilities, where available, for communications between parties to the terms and conditions specified in this tariff.

2.2. Description of Service

- 2.2.1. XIEX Telecommunications, Inc. is a switchless reseller/rebiller common carrier. Intrastate communications services are provided to subscribers for their direct transmission and reception of voice, data and other types of telecommunications between various locations within Florida. Service is available twenty-four hours a day, seven days a week. The underlying carriers networks are WilTel, Allnet, MCI, AT&T and Other Common Carriers.
- 2.2.2. To initiate a call, the subscriber dials a 1+10 digit number through a switched access line, Feature Group D, which is PICed at the local exchange company to the carrier's PIC code, by dedicated access line or T1 provided by the LEC and the subscriber is responsible for extra line access charges.
- 2.2.3. The subscriber is billed for each individual call, over the minimum duration, placed during the month. Please refer to Section 4 for the rates and charges schedule.
- 2.2.4. Service is provided on a subscription basis.

Section 2. Rules and Regulations (Continued)

2.2. Description of Service (Continued)

- 2.2.5. The subscriber is responsible for the charge, local or toll, incurred in accessing XIEX's POP. This charge is to be billed to the originating number, by the appropriate local carrier in the absence of special billing instructions from the subscriber.
- 2.2.6. Authorization codes are issued to the subscriber by Carrier. Subscribers may use more than one authorization code to simplify his accounting for long distance charges. The numerical composition of identification codes is set by carrier to assure compatibility with carrier's accounting and automation systems and to avoid duplication of authorization codes.

2.3. Limitations of Service

- 2.3.1. Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this tariff. Carrier reserves the right not to provide service to or from a location where necessary facilities or equipment are not available or justified.
- 2.3.2. Carrier reserves the right to discontinue furnishing service, upon written notice, when necessitated by conditions beyond its control, or when the subscriber is using the service in violation of the provisions of this tariff, or in violation of the law.
- 2.3.3. Title to all facilities provided by XIEX under these regulations are WilTel, Allnet, MCI and Other Common Carrier's tariffed equipment and charges.

Section 2. Rules and Regulations (Continued)

2.4. Use of Service

- 2.4.1. Service may be used for the transmission of communications by the subscriber.
- 2.4.2. Service may not be used for any unlawful purpose or for any purpose for which payment or other compensation is received by the subscriber, except when the subscriber is a duly authorized and regulated Common Carrier. This provision does not prohibit an arrangement between the subscriber, authorized user or joint user to share the cost of the service as long as the arrangement generates no profit for the participant in the arrangement.

2.5. Liabilities of Carrier

- 2.5.1. The liability of Carrier for any claim or loss, expense, or damage (including indirect, special or consequential damage), for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this tariff shall not exceed an amount equivalent to the proportionate monthly subscription fee charged to the subscriber for the period of service or the facility provided during which such interruption, delay, error, omission or defect occurs. Any adjustment shall apply only to the period of interruption, delay, error, omission or defect is received by Carrier. No other liability shall in any case attach to the Carrier on account of interruptions, delay, error, omission or defect of service. For the purpose of computing the credit, a month is considered to have thirty (30) days.

2.5. Liabilities of Carrier (Continued)

2.5.2. If any interruption, delay, error, omission or other defect in any service, facility, or transmission provided under this tariff is caused by any person or entity other than Carrier, by any malfunction of any service or facility provided by any other Carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond Carrier's direct control, Carrier shall not be liable for any claim or loss, expense, or damage, including indirect, special or consequential damage.

2.5.3. Carrier shall not be liable for, and shall be fully indemnified and held harmless by subscriber against any claim, loss, expense or damage including indirect, special or consequential damage for:

defamation, invasion of privacy, infringement of copyright or patent, unauthorized use of any trademark, trade name or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising from the material, data, information or content revealed to, transmitted, processed, handled, or used by Carrier under this tariff, or;

for connecting, combining or adapting Carrier's facilities with subscriber's apparatus or systems, or;

for any personal injury or death of any person or for any loss of or damage to subscriber's premises or any other property, whether owned by the subscriber or others, caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, or removal of equipment or wiring provided by the Carrier, if not directly caused by negligence of the Carrier. No agent or employee of any other carrier shall be deemed to be an agent or employee of the Carrier, or;

liability for failure to provide service.

2.6. Application for Service

- 2.6.1. Any applicant for service is required to sign an application (Services Request) requesting the Carrier to furnish the service in accordance with rates, charges, rules and regulations from time to time in force and effect.
- 2.6.2. The name(s) of the subscriber(s) must be set forth in the Services Agreement.

Section 2. Rules and Regulations (Continued)

2.6. Application for Service (Continued)

- 2.6.3. If it is discovered that the subscriber is indebted to the Carrier or any other Carrier or telephone company, for previously furnished services, Carrier reserves the right to refuse service to such subscriber, until satisfactory payment arrangements are made. Carrier may also refuse to furnish service to any applicant desiring to establish service for former subscribers of the Carrier or any other carrier or telephone company who are indebted for previous service, regardless of the listing request for such service until satisfactory arrangements have been made to clear up such indebtedness.
- 2.6.4. If it is determined subsequent to establishment of service that either condition in 2.6.C exists, Carrier may suspend or discontinue service until satisfactory arrangements have been made to pay such indebtedness.
- 2.6.5. If application for service, additions, rearrangements, relocation or modifications of service are canceled in whole or in part prior to completion of the work involved, the applicant will be required to reimburse the Carrier for all expenses incurred in handling the request before notice of cancellation is received. This charge will not exceed all charges which would apply if the work involved in compliance with the request had been completed.

2.6. Application for Service (Continued)

- 2.6.6. When equipment has been ordered for the specific needs of a subscriber and the installation thereof is unduly delayed by or at the request of the subscriber, appropriate charges will apply for such equipment for the period of the delay.
- 2.6.7. Subscriber gives XIEX Telecommunications, Inc. a letter of Agency for providing PIC changes.
- 2.6.8. XIEX Telecommunications, Inc. has the right to change subscriber back to previous service if subscriber does not pay XIEX.

2.7. Discontinuance and Restoration of Service

2.7.1. At the Subscriber's Request

If the subscriber orders service requiring special abilities dedicated to the subscriber's use and then cancels his order before service begins, or prior to completion of the minimum period, or before completion of some other period mutually agreed upon by the subscriber and Carrier, the subscriber will be charged for the nonrecoverable portions of expenditures or liabilities expended on behalf of the subscriber by Carrier and not fully reimbursed. If, based on the order, any construction has either begun or been completed, but no service provided, the nonrecoverable cost of such construction shall be charged to the subscriber. Such charges shall be filed in the tariff on a case by case basis.

2.7.2. Restoral of Service Charge

When service has been discontinued for failure to maintain credit as specified above, service will be restored after the service charge has been collected from the subscriber if it makes good business sense. If not, the subscriber will return to other services by the subscriber's or XIEX Telecommunications, Inc.'s direction.

2.7.3. Termination of Service by the Carrier

2.7.3.A. The Carrier may, without notice, either suspend or terminate the subscriber's service without suspension, or discontinue service and remove any of its equipment from the subscriber's premise upon:

2.7.3.A.1. Abandonment of service.

2.7.3.A.2. Use of service or facilities for a call or calls, anonymous or otherwise, in a manner reasonably to be expected to frighten, abuse, torment or harass another.

- 2.7.3.A.5. Any other violation of the Carrier's regulations.
- 2.7.3.B. Carrier reserves the right to cancel service to any subscriber who uses or permits the use of obscene, profane or grossly abusive language over the Carrier's facilities, and who, after reasonable notice, fails, neglects or refuses to cease and refrain from such practice or to prevent the same, and to remove its property from the premises of such person.

Section 2. Rules and Regulations (Continued)

2.7. Discontinuance and Restoration of Service (Continued)

2.7.4. Unlawful Use of Service

Service is furnished subject to the condition that the service will not be used for an unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of law and that a formal charge has been filed by competent authority against the subscriber. Before discontinuing service to such subscriber Carrier shall give to subscriber no less than three days written notice of its intention to do so. Carrier will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of law.

2.7.5. Unsafe or prohibited facilities, appliances, or apparatus.

Carrier may refuse to furnish service to an applicant for service and may discontinue service to a subscriber if any of the facilities, appliances, or apparatus on subscriber's premises are found to be unsafe or causing harm to Carrier's facilities, and may refuse to furnish service until the applicant or subscriber has remedied the condition.

2.7. Discontinuance and Restoration of Service (Continued)

2.7.6. Abuse or Fraudulent Use of Service

2.7.6.A. Service is furnished subject to the conditions that there will be no abuse or fraudulent use of the service, who, over the facilities furnished by the Carrier, abuses or fraudulently uses the service.

2.7.6.B. The Carrier may refuse to furnish or deny service to any person, firm or corporation. Carrier may refuse or deny service to any person, firm, or corporation, if, in the opinion of the Carrier, a subscriber uses the service in such a manner as to constitute abuse or fraud, or in a manner that may tend to injuriously affect the efficiency of the Carrier's plant, property or service.

2.8. Standards on Payment and Collection or Reconnection Charges

2.8.1. Service bills are due and payable upon receipt. Payment is expected with 10 days after the date the bill was mailed. If the postmark date on a subscriber's payment is not legible, a three (3) day mailing period will be presumed.

2.8.2. If the last calendar day for remittance falls on a weekend, legal holiday, or other day when our offices are not open to the public, the final payment date shall be extended through the next business day.

2.11. Payment of Bills (Continued)

- 2.11.2. The subscriber is responsible for payment of all charges for services furnished to the subscriber. Charges for establishing or changing service are payable upon demand by the Carrier. Charges based on actual usage during a month will be billed monthly in arrears and the subscriber shall pay all charges upon demand.
- 2.11.3. All charges owed by the subscriber are payable at Carrier's office. If objection in writing is not received by Carrier ten (10) days after the bill is rendered the account shall be deemed correct and binding upon the subscriber. Non payment of charges for service may result in the interruption or discontinuance of any or all of the services furnished to the subscriber.
- 2.11.4. Should service be suspended for nonpayment of charges, restoration of service will be provided as explained under "Restoral of Service Charge" in Section 4.7 of this document.
- 2.11.5. Service is considered to be terminated after it has been discontinued for nonpayment. Re-establishment of service may be made only upon the execution of new service agreement which is subject to the provisions contained in this tariff.

Section 2. Rules and Regulations (Continued)

2.11. Payment of Bills (Continued)

- 2.11.6. Service may be reestablished to a suspended account, prior to payment of all charges due at the discretion of the Carrier. Such reestablishment will not be construed as a waiver of rights to suspend or discontinue service for nonpayment of any such or other charges due and unpaid for the violation of the provisions of this tariff; nor shall the failure to suspend or discontinue service for non-payment of any past due account or accounts operate as a waiver or estoppel to suspend or discontinue service for non-payment of such account or of any other past due accounts.
- 2.11.7. Retroactive billing adjustments will not be made for a period exceeding one (1) year.
- 2.11.8. For billing purposes each month is presumed to have 30 days.

2.12. Minimum Service Period

- 2.12.1. The minimum service period is one month from the date service commences.
- 2.12.2. A contract period of one month may be required by Carrier for a subscriber at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

Section 2. Rules and Regulations (Continued)2.13. Special Equipment and/or Arrangements

- 2.13.1. For special equipment and arrangements furnished in connection with service, charges equivalent to the estimated cost of furnishing such equipment or arrangements apply. Estimated cost consists of an estimate of the cost of maintenance; cost of operation; depreciation on the estimated useful service life of the facilities with an appropriate allowance for the estimated net salvage; administration, taxes and uncollectible revenue on the basis of reasonable average charges for these items; any other specific items of expense associated with the particular situation; and a reasonable amount, computed on the estimated cost installed of any facilities provided for return and contingencies.
- 2.13.2. Estimated cost installed as mentioned in the above includes cost of equipment and materials specifically provided or used plus the estimated cost of installing, including engineering, labor supervision, transportation, rights-of-way and any other items which are chargeable to the capital accounts.

2.14. Ownership of Equipment

- 2.14.1. Equipment furnished by Carrier on the premises of a subscriber is the property of Carrier.
- 2.14.2. Equipment purchased for the subscriber for connecting a DAL or T1 circuit to the Software Defined Network will be the property of the subscriber after it is paid for.

Section 2. Rules and Regulations (Continued)

2.15. Deposits

Deposits are not required for services rendered for Business or Residential Subscribers.

2.16. Interconnection

2.16.1. Service furnished by Carrier may be interconnected with services or facilities of other authorized communication common carriers and with private systems, subject to the technical limitations established by Carrier. Service furnished by Carrier is not part of a joint undertaking with such other carriers. Any special interface equipment or facilities necessary to achieve compatibility between the facilities of Carrier and other participating carriers shall be provided at the subscriber's expense.

2.16.2. Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of the other carrier's tariffs. The subscriber is responsible for taking all necessary legal steps for interconnecting his subscriber-provided terminal equipment for communications systems with Carrier's facilities. He shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.

2.17. Taxes and Fees Chargeable to Subscribers

2.17.1. Adjustments for Municipality Payments

If at any future time a municipality acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the subscribers receiving service within the territorial limits of such municipality. Such billing shall allocate the tax, fee or charge among subscribers uniformly on the basis of each subscriber's monthly charges for the types of services made subject to such tax, fee or charge.

2.17.2. Adjustments for County or Other Local Taxing Authority Payments

If at any future time a county or other local taxing authority acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon Carrier, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the subscribers receiving service within the territorial limits of such county or other taxing authority. Such billing shall allocate the tax, fee or charge among subscribers uniformly on the basis of each subscriber's monthly charges for the types of service made subject to such tax, fee or charge.

Section 2. Rules and Regulations (Continued)

2.18. Inspection, Testing and Adjustment

- 2.18.1. Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this tariff are being complied with in the installation, operation or maintenance of the subscriber's or the Carrier's equipment. Carrier may interrupt the service at any time, without penalty to itself, because of departure from any of these requirements.
- 2.18.2. Upon reasonable notice, the facilities provided by Carrier shall be made available to Carrier for such tests and adjustments as may be necessary for their maintenance in a condition satisfactory to Carrier. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.19. Connection with Subscriber-Provided Equipment and Facilities

- 2.19.1. Carrier's facilities and service may be used with or terminated in subscriber-provided terminal equipment or subscriber-provided communication systems, such as teleprinters, handsets or data sets. Such terminal equipment shall be furnished and maintained at the expense of the subscriber, except as otherwise provided. The subscriber is responsible for all costs at his premises, including subscriber personnel, wiring, electrical power, and the like, incurred in his use of Carrier's service.

Section 2. Rules and Regulations (Continued)2.19. Connection with Subscriber-Provided Equipment and Facilities  
(Continued)

- 2.19.2. When such terminal equipment is used, the equipment shall comply with the minimum protective criteria set forth below and shall not interfere with service furnished to other subscribers. Additional protective equipment, if needed, shall be employed at the subscriber's expense.
- 2.19.3. When service using Bell voice grade facilities is terminated in subscriber-provided terminal equipment, channel derivation-devices, or communication systems, the subscriber shall comply with the following minimum protective criteria:
- 2.19.3.A. When the facilities furnished under this tariff are used in common with Bell System Services, it is necessary in order to prevent excessive noise and crosstalk that power of the signal applied to Bell lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band over 300 Hertz, which may be applied by the subscriber-provided equipment at the point of termination, will be specified by Carrier for each application to be consistent with the signal power allowed on the telecommunications network.

2.19.3.B. To protect the telecommunications services from interference at frequencies which are about the band of service provided, Carrier will specify the acceptable signal power in the following bands to be applied by the subscriber-provided equipment or communications systems at the point of termination to insure that the input to Bell facilities does not exceed the following limits:

- 2.19.4.B.1. The power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 db below the power of the signal as specified in the subsection "1" above.
- 2.19.3.B.2. The power in the band from 4,005 Hertz to 10,000 Hertz shall not exceed 16 db below one milliwatt.
- 2.19.3.B.3. The power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 db below one milliwatt.
- 2.19.3.B.4. The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 db below one milliwatt.
- 2.19.3.B.5. The power in the band above 40,000 Hertz shall not exceed 50 db below one milliwatt.

2.19. Connection with Subscriber-Provided Equipment and Facilities  
(Continued)

2.19.3.C. Where there is connection via subscriber-provided terminal equipment or communications systems to a Message Telecommunications Service or a WATS service, to prevent the interruption or disconnection of calls, or interference with network control signaling, it is necessary that the signal applied by the subscriber-provided equipment to the interface at no time has energy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

2.19.3.D. Where such subscriber-provided equipment or communications system applies signals having components on the frequency spectrum below 300 Hertz excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the following limits:

2.19.3.D.1. The maximum rms (root-means square) value, including dc and ac components, of the current shall not exceed 0.35 ampere.

2.19.3.D.2. The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.

2.19.3.D.3. The conductor voltage shall be such that the conductor to ground voltage limit in 2.19.3.D.2. preceding is not exceeded. If the signal source is not grounded, the voltage limit in 2.19.3.D.2. preceding applies to the conductor to conductor voltage.

2.19.3.D.4. The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of products times the square of the rms voltage of the individual frequency components. The weighing factors are as follows:

<u>For Frequencies Between</u>	<u>Weighing Factor</u>
50 Hertz and 100 Hertz	2 4 f/10
100 Hertz and 300 Hertz	3.3 6.6 f/10

f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

2.19.4. The subscriber shall also comply with the minimum protective criteria generally accepted in the telephone industry and other appropriate criteria as may be prescribed by Carrier. The subscriber shall ensure that his terminal equipment is properly interfaced with the Carrier's facilities, that the signals emitted into the Carrier's facilities are of the proper mode, bandwidth, power, data speed, and signal level for the intended use of the subscriber, and that the signals do not damage the Carrier's equipment, injure personnel or degrade service to other subscribers.

2.19.5. If the subscriber fails to maintain and operate his terminal equipment properly, resulting in the occurrence or possibility of harm to Carrier's equipment, personnel, or the quality of service to other subscribers, Carrier may, upon written notice, require the use of protective equipment at the subscriber's expense. If this fails to produce satisfactory quality and safety of service, Carrier may, upon written notice, terminate the subscriber's service immediately.

2.20. Resale of Service

The resale of any services provided by Carrier is permitted as specifically authorized by Carrier.

## SECTION 3 - DESCRIPTION OF SERVICE

3.1. Timing of Calls

Subscribers are charged individually for each call they place through Carrier's system since the last monthly billing. Each call is timed from the time the call destination phone answers and LEC gives carrier answer supervision, and the time the call ends when either party hangs up and carrier recognize disconnect supervision.

3.2. Calculation of Distance

Usage charges for all mileage sensitive products are based on the airtime distance between rate centers associated with the originating and terminating points of the call. The airtime mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. Carrier uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communication Research in their NPA-NXX V&H Coordinate Tape and AT&T Tariff No. 10.

Formula: 
$$\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$

3.3. Service Offerings

3.3.1. Each billed charge for every call is determined by the following formula:

Billable charge equals (rate per minute times the number of minutes or fraction thereof) less any applicable discounts.

3.3. Service Offerings (Continued)

- 3.3.2. The rate for any given call is composed of one charge for the first 18 seconds and a second charge for each additional 6 seconds. The rate that applies to any given call is a direct function of the distance between the points of origination and distribution as determined by methods set forth in Section 3.2.
