Re: Docket No. 930443-WS - Application for Amendment to Certificate Nos. 76-W and 284-S in Putnam County.

Dear Ms. Teasley:

Staff is in receipt of your application for an amendment in the above- referenced docket. However, after reviewing your application we have determined that the following deficiencies must be corrected:

- (1) Rule 25-30.035(9), Florida Administrative Codes requires the applicant to submit a legal description, using township, range, and section references, of the territory the utility was serving, or was authorized to serve by the county which had jurisdiction over the utility on the day Chapter 367, Florida Statutes, became applicable to the utility.

The territory currently submitted by the utility for Beecher's Point, Palm Port, Saratoga Harbor and Wootens subdivisions does not meet the requirements of the above rule due to unacceptable references. Please submit a legal description using the requisite references.

- (2) Rule 25-30.036(j), Florida Administrative Code, requires the applicant to provide a statement describing the capacity of the existing lines, the capacity of the treatment facilities, and the design capacity of the proposed extension.
- (3) Rule 25-30.036(k), Florida Administrative Code, requires the applicant to provide the numbers and dates of any permits issued for the proposed systems by the Department of Environment Regulation.
- (4) Rule 25-30.036(m), Florida Administrative Code, requires the applicant to provide a description of the types of customers anticipated to be served by the extension, i.e., single family homes, mobile homes, duplexes, golf course clubhouse, commercial, etc.
