type of record in Form PSC/AFA/17, after the date the document was created or received by the utility. This paragraph does not require the utility to create paper copies of documents where the utility would not otherwise do so in the ordinary course of its business. The Commission may waive the requirement that documents be retained in their original form upon a showing by a utility that it employs a storage and retrieval system that consistently produces clear, readable copies that are substantially equivalent to the originals, and clearly reproduces handwritten notations on documents.

(b) The utility shall maintain written procedures governing the conversion of source documents to a storage and retrieval system, which procedures ensure the authenticity of documents and the completeness of records. Records maintained in the storage and retrieval system must be easy to search and easy to read. Specific Authority: 364.17, 364.20, F.S. Law Implemented: 364.17, 364.20, F.S.
