

June 7, 1993

Mr. Steven C. Tribble, Director
Division of Records and Reporting
Florida Public Service Commission
101 East Gaines Street
Tallahassee, Florida 32399-0870

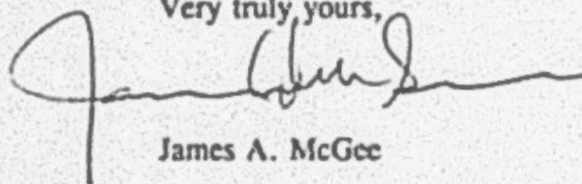

Re: Docket No. 930001-EI

Dear Mr. Tribble:

It has come to my attention that the GPIF Reward/Penalty Testimony of William C. Micklon filed by Florida Power Corporation on May 21, 1993 contains two typographical errors. On page 4, line 12, the storm-related outage hours for Crystal River #4 should be changed from 19.9 to 55.8. On page 4, line 13, the outage hours for Crystal River #5 should be changed from 35.9 to 21.5. Enclosed herewith for filing in the above-referenced docket are fifteen copies of revised page 4 of the testimony of William C. Micklon.

Please acknowledge your receipt of the above filing on the enclosed copy of this letter and return to the undersigned. Thank you for your assistance.

Very truly yours,

James A. McGee

- 1 A. Yes, Sheet 22 of my exhibit shows a comparison of target and actual
 2 planned outage hours in bar-chart form. Sheets 23 through 27 present
 3 as-worked critical path charts for each unit which experienced a planned
 4 outage during the period.
- 5
- 6 Q. Were any adjustments made to actual performance data because of the
 7 so-called "storm of the century" in March 1993?
- 8 A. Yes. In accordance with Section 4.31 of the GFIF Implementation
 9 Manual, forced outage hours caused by the March 1993 storm have
 10 been removed. The following forced outage hours were removed from
 11 actual performance data: Anclote No. 1 = 16.3 hours, Crystal River
 12 No. 2 = 108.8 hours, Crystal River No. 4 = 55.8 hours, and Crystal
 13 River No. 5 = 21.5 hours.
- 14
- 15 Q. Were any adjustments made to actual performance data because of the
 16 impact of EPA mandated flow reduction for Crystal River 1 and 2?
- 17 A. Yes. An adjustment was made to the Crystal River No. 1 actual heat
 18 rate data by removing the amount of fuel equivalent to the condenser
 19 back pressure penalty imposed by flow reductions. The methodology
 20 used to calculate the back pressure penalty is described in the Winter
 21 '92/'93 target filing. The removal of the flow reduction impact placed
 22 Crystal River net performance in the dead band range where neither a
 23 reward nor a penalty is earned.

CERTIFICATE OF SERVICE

Docket No. 930001-EI

I HEREBY CERTIFY that a true copy of revised page 4 to the direct testimony of William C. Micklon, on behalf of Florida Power Corporation, has been furnished to the following individuals by U.S. Mail this 7th day of June, 1993:
