TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised sheet 14 cancels the 3rd revised sheet 14.
- C. Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1
 - 2.1.1
 - 2.1.1 (A)
 - 2.1.1 (A).1
- D. Check Sheets - When a tariff filing is made with the FPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision.

SECTION 2 - RULES AND REGULATIONS**2.3 Liabilities of The Company (continued)**

2.3.8 This service is furnished subject to the conditions that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- The use of the service of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service;
- The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain service by rearranging, tampering with, or making connection with any service components of the Underlying Carrier, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever, with intent to avoid the payment, in whole or in part, of the regular charge for such service;
- The use of the service of the Company for a message or messages, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment, or harass another;
- The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

2.3.9 Billing Disputes

Any objection to billed charges should be promptly reported to the Company. Adjustment to the Customer's bills shall be made to the extent that records are available and/or circumstances exist which indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.

SECTION 2 - RULES AND REGULATIONS

2.3 Liabilities of The Company (continued)

2.3.10 Consequential And Other Damages

The Company's liability shall be limited to that expressly assumed in Paragraph 2.3 hereof. The Company shall not be liable for any other direct, indirect, consequential, special, actual, or punitive damages, or for any lost profits of any kind or nature whatsoever arising out of any furnishing of, or interruption in, service provided hereunder, absent a determination of willful misconduct by judicial or administrative proceedings. With respect to any services provided hereunder, the Company hereby expressly disclaims, without limitation, all warranties not stated in this tariff, whether express, implied or statutory, and in particular disclaims all implied warranties of merchantability and fitness for a particular purpose.

2.4 Use of Service

2.4.1 The Customer may not use any of the services offered by the Company under this Tariff for any unlawful purpose.

2.4.2 If the service is to be resold or rebilled, the subscriber must have a Certificate of Public Convenience and necessity as an interexchange carrier from the Florida Public Service Commission.

This provision does not prohibit an arrangement between the customer, authorized user, or joint user to share the cost of the service so long as the arrangement generates no profit for any participant in the arrangement.

2.7 Obtaining Service

2.7.1 Application for Service

To obtain service, the Company requires the Customer to complete an Application for Service which includes a letter of agency. The Customer must also establish credit.

2.7.2 Establishment of Credit

(A) Business Customer

The Company reserves the right to examine the credit record and check the references of all applicants and Customers. The Company may examine the credit profile/record of any applicant prior to accepting the service order or Customer's deposit. These shall not in themselves obligate the Company to provide services or to continue to provide services, if a later check of applicant's credit record is, in the opinion of the Company, contrary to the best interests of the Company.

(B) Residential

If the Customer bills via a major credit card or electronic bank transfer, no credit check is made. If the Customer bills via direct billing, the Customer's credit is checked according to Paragraph 2.7.2 (A).

SECTION 2 - RULES AND REGULATIONS

2.11 Cancellation By Company

2.11.1 Non-Payment

(A) Customer Bills Via Credit Card Or Electronic Bank Transfer

On the first occurrence of the transaction being rejected, the Company will call the Customer to determine what caused the transaction to be rejected. If the Customer can resolve the problem within three (3) business days, the Company will resubmit the transaction to the credit card company or bank. If the Customer is unable to resolve the problem within three (3) working days, a notice of service terminations will be sent to the Customer.

If within a twelve month period there is a second occurrence of the transaction being rejected, the Company will immediately send a notice of service termination in a separate mailing.

(B) Customer Is Direct Billed

If payment for telephone service is not received within thirty (30) days from the invoice date, a termination notice is sent to the Customer.

2.11.2 Notice of Service Termination

SECTION 2 - RULES AND REGULATIONS

2.15 Timing of Calls

2.15.1 General

Calls are timed by the Underlying Carrier that carries the call in accordance with its own tariff. The company does not charge for uncompleted calls.

2.15.2 00 or 0+ Calls Handled By The Operator Of The Underlying Carrier

- On station-to-station calls chargeable time begins when connections is established between the calling station and the called station, Miscellaneous Common Carrier, mobile radio system, or PBX system.
- On person-to-person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
- Chargeable times ends when the calling station hangs up thereby releasing the network connection. If the called station hangs up but the calling station does not, chargeable time ends when the network connection is released either by the automatic timing equipment in the telecommunications network or by the operator of the Underlying Carrier.

2.15.3 1+ Calls Timed Via Underlying Carrier AL

Conversation time is defined as when two way communications between the calling and called party is possible. Calls will be measured from the time that the called party answers to the time that either the calling party or called party disconnects from the call, as indicated by answer supervision.

SECTION 2 - RULES AND REGULATIONS

2.15 Timing of Calls (continued)

2.15.4 Calls Timed Via Underlying Carrier AT

(A) 1+ Calls

Chargeable time begins when connection is established between the calling station and the called station.

Chargeable time ends when the calling station "hangs up". If the called station "hangs up" but the calling station does not, chargeable time ends when the connection is released by the automatic timing equipment.

When the Company's services are directly connected to a Customer-provided communications system at the Customer's premises, chargeable time begins when a call terminates in, or passes through, the first Customer equipment on that Customer provided communications system.

(B) Optimus Credit Card

Calls are timed as indicated in Paragraph 2.15.4.

2.15.5 1+ Calls Timed Via Underlying Carrier S

Usage begins when the called party picks up the receiver and the local telephone company sends a signal to the switch which utilizes hardware answer supervision or software tone detection. A call is terminated when the calling party hangs up.

SECTION 2 - RULES AND REGULATIONS

2.15 Timing of Calls (continued)

2.15.6 1+ Calls Timed Via Underlying Carrier W

A call is initiated when the called party answers and is terminated when the called party or calling party hangs up, whichever occurs first. The Underlying Carrier will determine that a call has been initiated upon answer supervision. Answer supervision is accomplished either by receiving a confirmation signal from equipment at the called end or, in the absence of such a signal, by audio detection when a ring or busy signal is not being received. In such cases, billing begins only after a minimum of 60 seconds has elapsed, when it is reasonable to assume the frequency monitoring device is deemed to have erred. The Company will provide an appropriate credit to a Customer billed for a call of short duration when the Customer billed for a call of short duration identifies that the call was not complete.

2.15.7 Debit Cards Calls

Debit Card calls are timed by Underlying Carrier W as indicated in Paragraph 2.15.6.

2.16 Minimum Call Completion Rate

A Customer can expect a call completion rate (number of calls completed/number of calls attempted) of not less than 98% during peak use periods.

SECTION 2 - RULES AND REGULATIONS**2.18 Mileage Measurements****2.18.1 General**

Each rate center or POP has a unique set of assigned vertical and horizontal (V&H) coordinates which are used by the Underlying Carrier for calculating mileage. Calculation of mileage is in accordance with the V&H coordinate system.

2.18.2 Operator Toll Assistance

Rates for service between points are based on airline mileage between rate centers of the calling and called stations.

2.18.3 Other Mileage Sensitive Services

The distance is measured using the V&H coordinates associated with either the rate centers of the originating and terminating stations or the V&H coordinates associated with the originating and terminating POP of the Underlying Carrier. The type of access determines which V&H coordinates are used.

If a call is originated or terminated via Switched Access, the distance is measured using the V&H coordinates associated with the rate centers of the originating or terminating station. If the call is originated or terminated via Dedicated Access, the distance is measured using the V&H coordinates associated with the originating or terminating POP of the Underlying Carrier.

The rate for a call between access lines associated with stations that use the same central office is the rate for zero miles.

SECTION 2 - RULES AND REGULATIONS

2.19 Determination of Airline Mileage

2.19.1 Calls Mileaged By Underlying Carrier AT

For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the state. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. The unit is the square root of 0.1, expressed in airline miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. A pair of V&H coordinates locates a rate center, for determining airline mileage, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained as follows.

To determine the rate distance between any two rate centers proceed as follows:

- (A) Obtain the "V" and "H" coordinates for each rate center.
- (B) Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinate from the large coordinate.
- (C) Divide each of the differences in B preceding by three, rounding each quotient to the nearer integer.
- (D) Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in C preceding by three and repeat Step D. Repeat this process until the sum of the squares obtained in Step D is less than 1778.

SECTION 2 - RULES AND REGULATIONS

2.19 Determination of Airline Mileage (continued)

2.19.1 Call Mileaged By Underlying Carrier AT (continued)

To determine the rate distance between any two rate centers proceed as follows: (continued)

- (E) The number of successive division by three in Steps C and D determines the value of "N". Multiply the final sum of the two squares obtained in Step D by the multiplier specified in the following table for the value of "N" preceding.

N	Multiplier	Minimum Rate Mileage
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

- (F) Obtain square root of product in E preceding and with any resulting fraction, round up to the next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage show in E preceding, the minimum rate mileage corresponding to the "N" value is applicable.

SECTION 2 - RULES AND REGULATIONS

2.19 Determination of Airline Mileage (continued)

2.19.2 Calls Mileaged By Underlying Carrier S

Calculation of distance is in accordance with the V&H coordinate system. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal (V&H) coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in its NPA-NXX V & H Coordinates Tape and in NECA Tariff No. 4.

2.20 Holidays

2.20.1 Determining When Holiday Rates Apply

The term "Holiday" denotes all the following holidays:

- New Year's Day#
- President's Day*
- Memorial Day*
- Independence Day#
- Labor Day
- Columbus Day*
- Veterans Day#
- Thanksgiving Day
- Christmas Day#

The evening rates apply on a holiday unless a lower rate would normally apply. If the holiday is followed by "**", the holiday applies to Federally observed day only. If the holiday is followed by "#", the following rules apply. When this holiday falls on a Sunday, the Holiday is observed on the following Monday. When this holiday falls on a Saturday, the Holiday is observed on the preceding Friday.

SECTION 2 - RULES AND REGULATIONS**2.22 Determining Rate In Effect****2.22.1 General**

For outbound services that are time-of-day sensitive, the time-of-day at the central office or POP associated with the calling station determines the rate in effect. For inbound services that are time-of-day sensitive, the time-of-day at the central office or POP associated with the called station determines the rate in effect.

2.22.2 1+ Call Originates Via Switched Access

When a unit of time is split between two rate periods, each rate period applies to the portion of the call that occurred during that rate period.

2.22.3 1+ Call Originates Via Dedicated Access

When a unit of time is split between two rate periods, the rate is based on the rate period in which it began.

2.22.4 Operator Toll Assistance, *Infinity®Card Plus*, Follow Me 800, Debit Card, and Optimus Credit Card

The time at the beginning of each minute of connection determines the applicable rate period. When a message spans more than one rate period, total charges for the minutes in each rate period are calculated and the results for each rate period are totaled to obtain the total message charge.

SECTION 2 - RULES AND REGULATIONS**2.23 Application of Charges**

Usage charges apply to all completed calls. The usage charges for each completed call during a billing month will be computed. If the charge includes a fraction of a cent greater than or equal to \$.005, the fraction is rounded up to the next whole cent. If the charge includes a fraction of a cent less than \$.005, the fraction is rounded down to the next whole cent.

2.24 Interruption of Service**2.24.1 General**

It shall be the obligation of the Customer to notify the Company of any interruption in service for which a credit allowance is desired. Before giving such notice, the Customer shall ascertain that the interruption is not being caused by any action or omission by the Customer within his control, or is not in wiring or equipment, if any, furnished by the Customer.

2.24.2 Usage Sensitive Services

Credit allowances for the interruption of service are subject to the general liability provisions set forth in Paragraph 2.3.2 preceding.

2.25 Restoration of Service

The use and restoration of service in emergencies shall be in accordance with the priority system specified in Part 64, Subpart D of the rules and regulations of the Federal Communications Commission.

SECTION 3 - DESCRIPTION OF SERVICES**3.2 Inbound Service****3.2.1 General**

Inbound service permits calls to be completed to the Customer's location without charge to the calling party. Access to the service is gained by dialing a ten digit telephone number, (800) NXX-XXXX, which terminates at the Customer's location. All inbound services are interstate offerings with the Customer having the option of using the service to place intrastate calls. Intrastate service is only available if the Customer subscribes to the Company's interstate service offering. All Switched Access services are available only in equal access serving area. All Dedicated Access services are available statewide.

Dedicated Access channels are required from the Customer's premises to the POP of the underlying Carrier. Dedicated access channels may be purchased from carriers other than the LEC only in accordance with the Commission's rules or if special access is jurisdictionally interstate. Charges for the Dedicated Access channel are determined by the service provider

3.2.2 Plan AL Services**(A) Cipher 800**

Cipher 800 (see tariff sheet 66) calls are originated from any point in the state on any type of access and are terminated via Switched Access lines between the Subscriber's premises and the Underlying Carrier AL's POP in the terminating city.

(B) Cipher Direct 800

Cipher Direct 800 (see tariff sheet 68) calls are originated from any point in the state on any type of access and are terminated via T-1.5 Dedicated Access Lines between the Subscriber's premises and the Underlying Carrier AL's POP in the terminating city.

3.2.5 Plan W Service

(A) *Genesis™ 800*

Genesis™ 800 (see tariff sheet 67) calls are originated from any point in the state on any type of access and are terminated via Switched Access lines between the Subscriber's premises and the Underlying Carrier W's POP in the terminating city.

(B) *Genesis™ Direct 800*

Genesis™ Direct 800 (see tariff sheet 69) calls are originated from any point in the state on any type of access and are terminated via T-1.5 Dedicated Access Lines between the Subscriber's premises and the Underlying Carrier S's POP in the terminating city.

3.2.6 Follow Me 800

Follow Me 800 (see tariff sheet 67) allows a Customer to have an 800 number rerouted based on the location of the people answering the 800 number. The Customer dials a unique 800 number to reach the Follow Me 800 data base. To transfer the calls for the 800 number, the Customer enters the telephone number of where the calls are to be transferred. The transfer number may be any telephone number within the state. Calls to the 800 number are then forwarded to the transfer number until the routing change is discontinued.

SECTION 3 - DESCRIPTION OF SERVICES**3.3 Operator Toll Assistance****3.3.1 Description of Service**

Operator Toll Assistance (see tariff sheet 70) is any variety of telephone services which require the assistance of a long distance Operator. Examples include collect calls and person-to-person calls. There are two categories of operator services. They are 0+ calls and 00- calls. A 0+ call is one in which the Customer dials 0+ the called number to complete the call. a 00- call is one in which the operator dials the called number to complete the call for the Customer.

3.3.2 Availability

Operator Toll Assistance is only available to Customers utilizing Switched Access to reach the POP of the Underlying Carrier. If a Customer subscribing to any of the Company's services that utilize Dedicated Access to reach the POP of the Underlying Carrier dials 0, 00 or 0+ the called number, the call will be blocked. To reach the Operator of the Underlying Carrier, the Customer must program their PBX to route the 00 and 0+ calls over their Switched Access lines.

Operator Toll Assistance is available to Customers utilizing Switched Access to reach the POP of the Underlying Carrier that are provisioned via the Company's Plan S service or Plan AT-DNS service. The Underlying Carrier provides the service and brands the calls as belonging to the Underlying Carrier. However, the Company bills the charge according to the rates in Section 4 of this tariff.

Customers subscribing to any other outbound services utilizing Switched Access to reach the POP of the Underlying Carrier can reach the operator of the Underlying Carrier by dialing 0+ the called number or by dialing 00. The Underlying Carrier provides the operator services, brands the call, and direct bills all operator services calls under their name not the Company's name.

SECTION 3 - DESCRIPTION OF SERVICES**3.4 Directory Assistance****3.4.1 Description of Service**

Intrastate Directory Assistance (see tariff sheet 73) involves the supplying of assistance in determining or attempting to determine the telephone number of a party.

3.4.2 Availability of Service

Directory Assistance is available to any Customer that has access to the directory assistance bureau of the Underlying Carrier. If a Customer with Switched Access calls directory assistance for a call within their area code, the call is handled by the LEC. If a Customer with Switched Access calls directory assistance for a call within the state but outside of their area code, the call is routed to the Underlying Carrier for handling. Customers with Dedicated Access must program their PBX to route directory assistance calls over their Switched Access lines.

SECTION 3 - DESCRIPTION OF SERVICES

3.5 Calling Card Service (continued)

3.5.2 Debit Cards

(A) General

A Debit Card allows a Customer to arrange for payment for telecommunication services prior to using the services. The Debit Card is available to Residential Customers and to Business Customers.

To place a Debit Card call, the Customer dials a unique 800 number to reach the Debit Card data base. Prior to connection to the called number, the computer advises the Customer how much unused usage remains on the card. The Customer is then connected to the called number. In real time, the charge for the call is deducted from the remaining usage. The Customer will receive a warning two minute before the Debit Card usage expires. If the Debit Card usage expires prior to the Customer completing the call, the call will be disconnected.

Billing for the Debit Card is handled as any other service. See Paragraph 2.8. The Debit Card is provisioned via Underlying Carrier W.

Dear Sir:

Enclosed are an original and twelve (12) copies of Tele-Pro Communications Inc.'s Application form for Authority To Provide Interexchange Telecommunications Service Within The State of Florida. Please date-stamp and return the extra copy of the transmittal letter provided as proof of filing. An envelope with the return address and the appropriate postage is attached for this purpose.

Also enclosed is a check for \$250 made payable to the Florida Public Service Commission to cover the filing fee.

If plead or ruling is not in favor of applicant, please withdraw the application rather than reject the petition.

Your assistance in this matter is greatly appreciated.

Sincerely,
